

ITU Workshop on Telecommunication Quality of Service, Quality of Experience and Future
Networks

(Livingstone, Zambia, 12-13 May 2026)

Mohammed Mustafa (NCC, Nigeria):

“Overview of Q5/13 activities – Focus on Africa”

Abstract:

ITU Study Group 13 Question 5 is titled "Applying future networks in developing countries". This presentation covers the aspects of work being carried out by Question 5. The presentation shows the alignment and importance of Question 5 to Africa's drive for future networks adoption across the continent. The presentation further covers the different work items completed and ongoing within Question 5 and how delegates and member states from Africa can contribute to this work and also take advantage of Question 5 to drive their Standardization requirements.
