Membership
Sectors

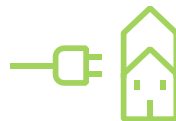

ITU Radiocommunication (ITU-R)

Coordinating radio-frequency spectrum and **assigning** orbital slots for satellites

ITU Standardization (ITU-T)

Establishing global standards

ITU Development (ITU-D)

Bridging the digital divide

| *Meet the sectors*

ITU-R /RADIOCOMMUNICATIONS/

Meet the sectors

ITU - R

KEY ROLE

Global management of **radio-frequency spectrum and satellite orbits**

Meet the sectors

ITU - R

MAJOR ACHIEVEMENTS

IMT-2000 and **IMT-Advanced** technical frameworks underpin mobile 3G and 4G networks

Recommendations on **3DTV**, **Ultra High Definition TV (UHDTV)** standards

Excellent track record in maintaining harmonious **satellite coordination**

| *Meet the sectors*

ITU-T /STANDARDIZATION/

Meet the sectors

ITU - T

KEY ROLE

Crucial role in **defining operation and interoperability of technologies** that underpin global communications network

200 - 300 new global standards approved every year, with over **4,000** in use today

Meet the sectors

ITU - T

MAJOR ACHIEVEMENTS

Optical fibre

G.fast
up to 2Gbit/s
over existing
telephone wires

H.264 & H.265
The **Prime Emmy**
award winning
video codec

| *Meet the sectors*

ITU-D /DEVELOPMENT/

Meet the sectors

ITU - D

KEY ROLE

Spread equitable and affordable **access to telecommunications** to help stimulate social and economic development

Human capacity-building in developing and least developed countries
