In response to the liaison statement of ITU-T Standardization Committee for Vocabulary (SCV) reminding *resolves* 4 of WTSA-12 Res. 67, Study Group 3 is pleased to inform SCV that good note has been on the encouragement to send to SCV, on a regular basis, the terms and definitions that are being considered for incorporation in a Recommendation and which may have implications in the work of other study groups or in other sectors of ITU, so that SCV may seek harmonization among all concerned study groups.
