

**MEMORANDUM OF UNDERSTANDING (MoU)**  
**BETWEEN**  
**THE INTERNATIONAL TELECOMMUNICATION UNION**  
**AND**  
**THE GLOBAL ACCREDITATION COOPERATION INCORPORATED**  
**(Global ACI)**

**1. Parties and Purpose**

The Parties

- 1.1 The International Telecommunication Union (hereafter ITU) is the United Nations specialised agency for information and communication technologies (ICTs). It allocates global radio-frequency spectrum and satellite orbits, develops technical standards that ensure networks and technologies seamlessly interconnect, and strives to improve access to ICTs to underserved communities worldwide.
- 1.2 The Global Accreditation Cooperation Incorporated (hereafter Global ACI) is the specialised body administering a global multilateral recognition arrangement (MRA) among accreditation bodies responsible for accreditation of conformity assessment bodies including: calibration laboratories, testing laboratories, medical laboratories, inspection bodies, proficiency testing providers, reference material producers, biobanks, management system certification bodies, product certification bodies, personnel certification bodies and verification and validation bodies, having as their objective the formal recognition of competent conformity assessment bodies, for specified scopes.

The Purpose

- 1.3 The purpose of this MoU is to establish effective collaborative linkages between the Parties in the area of conformity and interoperability of ICT products, to facilitate achieving the desired level of connectivity and 'usability' of services to the end-users.

**2. Areas of Cooperation**

Subject to and in accordance with their respective missions, rules, procedures, and mandates, the Parties agree to co-operate in the following areas relating to the conformity and interoperability of ICT products:

2.1 Communication and sharing of information:

- 2.1.1 Sharing of information on the geographical representation of the ITU and Global ACI and the international organisations with which each Party has established links.

- 2.1.2 Providing access to the ITU Conformity and Interoperability Portal (<https://itu.int/go/citest>) through the Global ACI website.
  - 2.1.3 Providing access to Global ACI web pages that contain information on the accreditation body members that are signatories to the mutual recognition arrangements operated by each organisation and (where available) to lists of accredited certification bodies, laboratories and inspection bodies.
  - 2.1.4 Attendance by ITU and Global ACI representatives in committees and working groups where relevant technical work is being undertaken subject to the rules of each Party and without prejudice to established participatory right of the respective memberships.
  - 2.1.5 Sharing of relevant policy and guidance documents at an early stage to allow each organisation the opportunity to provide comment.
  - 2.1.6 Collaborating on topics of mutual interest to agree on common policy and positions where relevant.
- 2.2 Collaboration, promotion and support:
- 2.2.1 Subject to prior coordination, promotion of relevant activities and events through the websites, newsletters and publications of each Party.
  - 2.2.2 Promotion of the benefits of mutual recognition arrangements, the ITU Testing Laboratory recognition procedure and accredited conformity assessment in the conformity and interoperability field in accordance with the relevant ISO and ISO/IEC standards.
  - 2.2.3 Support and promotion of the ITU recognition of testing laboratories that are accredited by Global ACI MRA signatories to perform testing in accordance with ITU Recommendations as detailed in the ITU Testing Laboratory recognition procedure.
  - 2.2.4 Collaboration in the promotion of agreed common policy and positions to governments, standards and accreditation bodies and other relevant organisations.
- 2.3 Education and training:
- 2.3.1 Mutual invitation to participate in relevant technical meetings, workshops, courses, and training events in areas of common interest.
  - 2.3.2 Liaison between the Global ACI Joint Development Support Committee and the ITU to share information, and where appropriate, to collaborate on projects to support capacity building in accreditation for the conformity and interoperability field in developing countries.

### **3. Assignment or Transfer to Third Parties**

The responsibilities of the Parties under this MoU are not assignable or transferable to third parties.

#### **4. Confidentiality**

Any discussion or document related to this MoU and deemed confidential by the Parties will be governed by a stand-alone non-disclosure agreement to be signed by the Parties, as necessary.

#### **5. Financial Arrangements**

This MoU does not represent any commitment with regard to funding on the part of any Party.

#### **6. Settlement of Disputes**

The Parties confirm that they will exercise good faith efforts to resolve any dispute between them arising from or in connection with this MoU through mutual negotiation and agreement.

#### **7. Entry into Force, Modification and Termination**

This MoU will enter into force on the date of its signature by the Parties and may only be modified with the mutual written consent of all Parties. This MoU may be terminated upon written notice to the other Parties and will terminate 60 days after receipt of such notice. Any modification to this MoU shall be made by mutual written agreement between the Parties and annexed hereto. The Parties undertake to review and modify the MoU, including its areas of cooperation, as appropriate, at least every 5 years. If at any time during the implementation of this MoU, it is agreed by the Parties that the association of (a) third party(ies) will strengthen the process of achieving the objective of this MoU, then that/those third party(ies) may be formally associated with this MoU as mutually agreed.

Upon entry into force of this MoU, and in light of the merger of the International Accreditation Forum (IAF) and the International Laboratory Accreditation Cooperation (ILAC) under Global Accreditation Cooperation Incorporated, this MoU shall supersede and replace the Memorandum of Understanding signed on 24 August 2022 between the International Telecommunication Union, IAF and ILAC, which shall cease to have effect from that date.

#### **8. Channel of Communication and Notice**

For the purpose of facilitating the implementation of the working arrangements to be established by the Parties in the framework of this MoU, the channel of communication for the Participants will be:

International Telecommunication Union Attention: TSB Secretariat Telecommunication Standardization Bureau Place des Nations CH-1211 Geneva 20 Switzerland Telephone: +41 22 730 5780 Email: <a href="mailto:conformity@itu.int">conformity@itu.int</a>	Global Accreditation Cooperation Incorporated Attention: Global ACI Secretary 2200 Wilson Blvd, Ste 102-332 Arlington, VA 22201 United States of America Telephone: +1 571-569-2614 (USA) Email: <a href="mailto:secretariat@global-aci.org">secretariat@global-aci.org</a>

#### **9. Privileges, Immunities and Facilities**

By participating in this MoU, the ITU does not waive its privileges, immunities and facilities, which it enjoys by virtue of applicable international agreements and national laws.

**IN WITNESS WHEREOF, the Parties hereto, have signed this MoU in  
June 2026, in two (2) originals, in the English language.**
