## Disruptive Technologies for Financial and Government Services: Blockchain for Development

January 14<sup>th</sup> 2019

Venue: BNDES Office at Ventura Corporate Towers

Avenida República do Chile, No. 330 – Centro

Rio de Janeiro, RJ, Brazil

The event aims to discuss how **distributed ledger** and **blockchain** technologies can be used to create better financial and public services with a special attention to increase **transparency** and **data integrity**. The selected group of participants is going to talk about their experiences and vision of how to extract the most of this technology in order to create more reliable and efficient services to society.
