

# GUIDING PRINCIPLES FOR AI IN CITIES

Brief Overview

Presented by:  
Okan Geray, U4SSC Thematic Leader  
7 December 2021

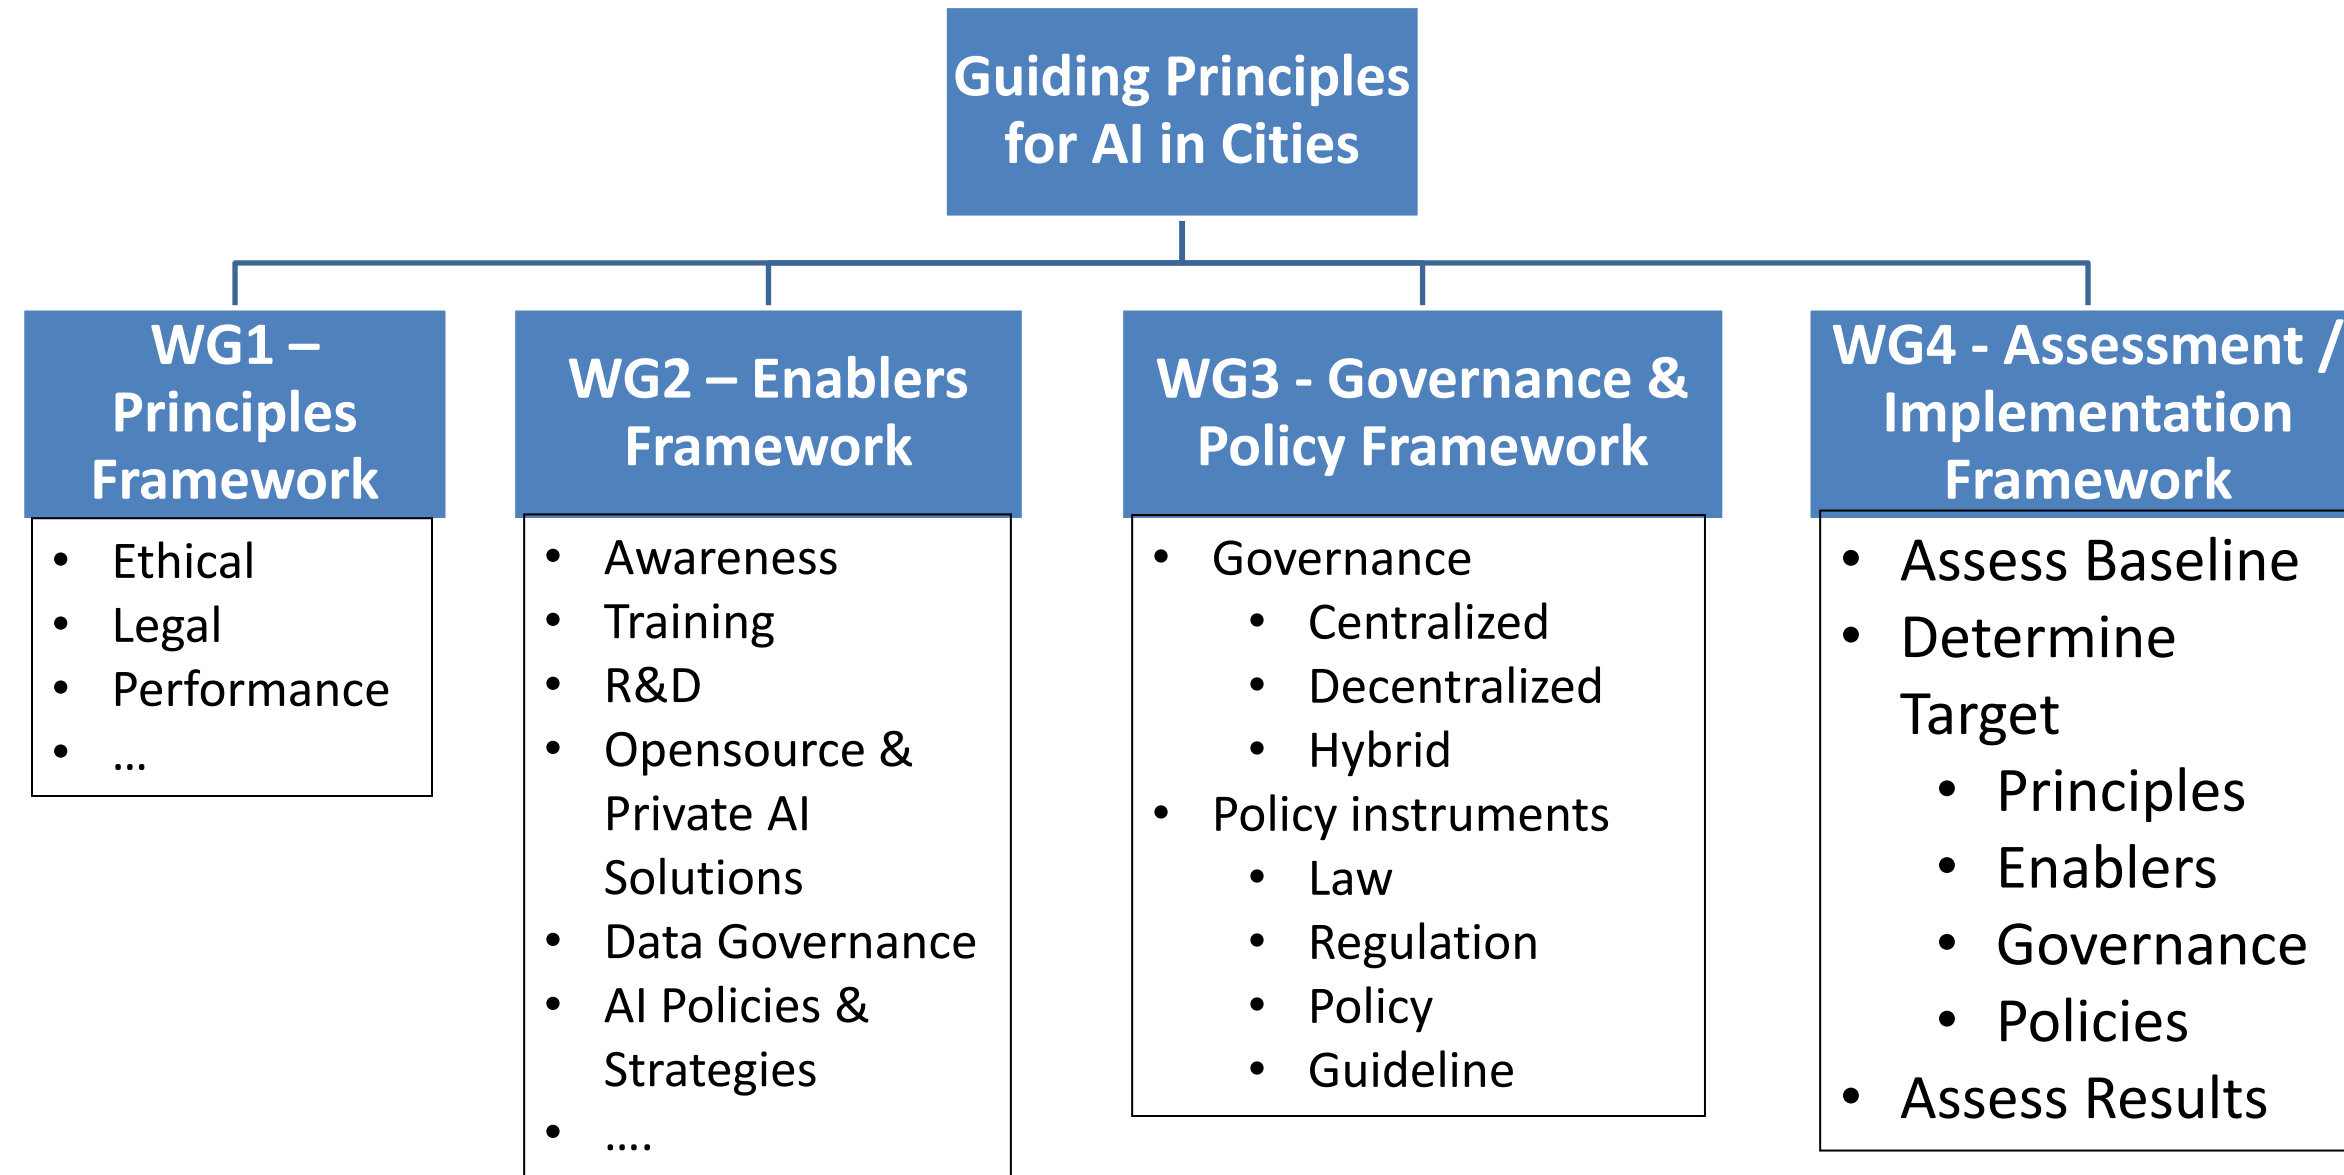

## Scope & Work

---

- This thematic group intends to Formulate a Principles-based Framework for implementing AI in Cities
- This thematic group is NOT ABOUT IDENTIFYING A COMPREHENSIVE LIST OF AI SOLUTIONS in SSCs (Smart Sustainable Cities); It is rather ABOUT PROVIDING GUIDANCE IN IMPLEMENTING AI FOR SSCs.
- The Framework intends to produce principles, enablers, governance and a simple implementation methodology for AI principles in SSCs
- The thematic group also aims to develop case studies across the globe regarding AI principles implementation

# Working Group (WG) Approach

---

## Next Steps

---

- **Completed the initial draft of the framework document and to consult on the unified draft document with:**
  - **U4SSC Group members**
  - **Potentially a short list of cities**
- **Develop case studies on AI principles implementation in cities (planned for Q1 and Q2'2022)**
- **Finalize the unified framework document and the case studies (planned for mid-2022)**

**Note: The deliverables will also be reviewed by U4SSC prior to publication**
