

**1 February 2013**

**Working Party 1/15 - Transport aspects of Access networks and home networking**  
**Working Party 1/15 Chairman: Tom Starr**

**Overview of the first Working Party 1/15 meeting of the 2013-2016 study period**

In accordance with the decisions taken at the last meeting of SG15 in September 2012, an interim meeting of Working Party 1/15 was held in Geneva on 1 February 2013 in order to take actions on draft texts and interim activities. This meeting was paperless.

The meeting Determined one draft amendment to G.9901 (narrow-band PSD specification); Consented one draft new Recommendation, six draft revised amendments and two draft corrigenda. Two outgoing Liaison Statements to BBF and others were agreed.

The agreements to Consent included new Recommendation ITU-T G.9962 (G.hn management), amendments and corrigenda to five DSL Recommendations, amendments to G.hnem and G.g3, and a corrigendum to G.hn DLL.

Progress on ITU-T G.fast, providing up to 1 Gbit/s over copper lines, included agreements on functional requirements from service providers, modulation characteristics and framing. Progress on ITU-T G.hn included resolution of nearly all Last Call comments and specifications for mitigation of noise between neighbour networks.

Interim activities were agreed as described in clause 8 of TD034/WP1, these included:

- Q4/15: 30 September - 4 October 2013, Barcelona.
- Q4/15: 2-6 December 2013, Geneva.
- Q4/15: 10-14 February 2014, TBC.
