

Mr. Huang Xiping

Senior Business Supervisor
Global Business Department

China Telecom

Mr. Huang Xiping, the senior Business Supervisor, has over 30 years experience in telecommunication industry of China.

He joined China Telecom in 1996. In the last ten years, he has been responsible for international organization management within China Telecom. From 2004 to 2006, he was appointed as the Chief Representative of China Telecom Europe Office, exploring the European business development. From 1996 to 2004, he had been responsible for commercial and financial work in collaboration with other world-lead telecom operators in building the international submarine cable systems such as China-Japan, China-Korea, China-US, APCN2, SEA-ME-WE 3 System, etc. He used to be the co-chairman of Procurement Group and the Management Committee for many international cable systems.

He received a B.A. of English Language from Zhengzhou University in 1984 and he took the Part-time Graduate Study for International Laws at China University of Political Science and Law from 2002 to 2004.

With many years of international cooperation experience, he is believed to have a good knowledge of coordination expertise and good experience both within the Corporation and with overseas business partners.
