Mr. XIE Yuansheng possesses 30 years' experience in the technical and administrative management of radio spectrum and has played a key role both at national and international levels in this regard. As the Director-General of the Radio Regulation Bureau, he is responsible for nation-wide spectrum planning

and allocation, in particular the development and revision of the Regulations on the Radio Frequency Allocation of China. He develops long-term strategies and resolves complex issues. Mr. Xie has headed dozens of bilateral meetings with the Administrations of the USA, the Russian Federation, France, the UK, Japan, Vietnam and other states on the coordination of satellite networks, as well as on the coordination of frequency assignments of terrestrial services in the border areas. Since 1988, he has participated various ITU-R SG&WP level meetings in an advisory capacity and as the deputy head of the Chinese delegation to WRC-12, WRC-07, WRC-2000 as well as their respective CPMs. Apart from the national and international levels, he also has experience at provincial level as the Director-General of Shanxi Communication Administration Bureau.
