

Santiago Reyes-Borda

Santiago is a Senior Policy Advisor for International Telecommunications and Internet Policy at the Department of Innovation, Science and Economic Development of Canada (ISED) and Canada's Councillor to the ITU.

He has over 20 years of experience in international telecommunications and Internet policy. His responsibilities with the Canadian Department of Innovation, Science and Economic Development (ISED) include ITU Governance (Plenipotentiary Conference and Council) the Development Sector (ITU-D), the World Telecommunications Policy Forum (WTPF) and the World Conference on International Telecommunications (WCIT). He has been the Head of the Canadian Delegations at WTDC-17 and WTDC-22, Deputy HoD at PP-14, PP-18 and PP-22. He has been the Vice-Chair of the ITU Expert Group on the ITRs for the Americas region, and chaired the Global Capacity Building Initiative (GCBI).

He also represents Canada at the Permanent Executive Committee of the Inter-American Telecommunication Commission (CITEL), the Asia-Pacific Telecommunications and Information Working Group (APEC Tel), the International Telecommunications Satellite Organization (ITSO), and the International Mobile Satellite Organization (IMSO). He is the former Chairman of CITEL's Working Group on Conference Preparations for the ITU Plenipotentiary Conference and of CITEL's Working Group in preparation for the WTSA, WTDC and WCIT.

Prior to joining the International Telecommunications Policy Directorate in 2003, Santiago was the Associate Director of the Office of International Partnerships (OIP) at the Information Highway Applications Branch of the Department of Industry of Canada, responsible for the promotion of the "Connecting Canadians" strategy in Latin America and the Caribbean. Santiago is co-author of the Agenda for Connectivity in the Americas and Plan of Action of Quito (ACAPAC) and a former member of the Institute for Connectivity in the Americas (ICA).

He is fluent in English, French and Spanish.
