

# **Expert Group on Telecommunication/ICT Indicators Expert Group on ICT Household Indicators Meetings 2025**

24-26 September 2025  
Geneva, Switzerland

## **Agenda, working methods and presentation of documents**

## Mission of EGH

To **review existing and develop new indicators** on household ICT access and individual ICT use, including reviewing and developing harmonized definitions, response categories and/or classificatory variables to stay current with technological and behavioral changes.

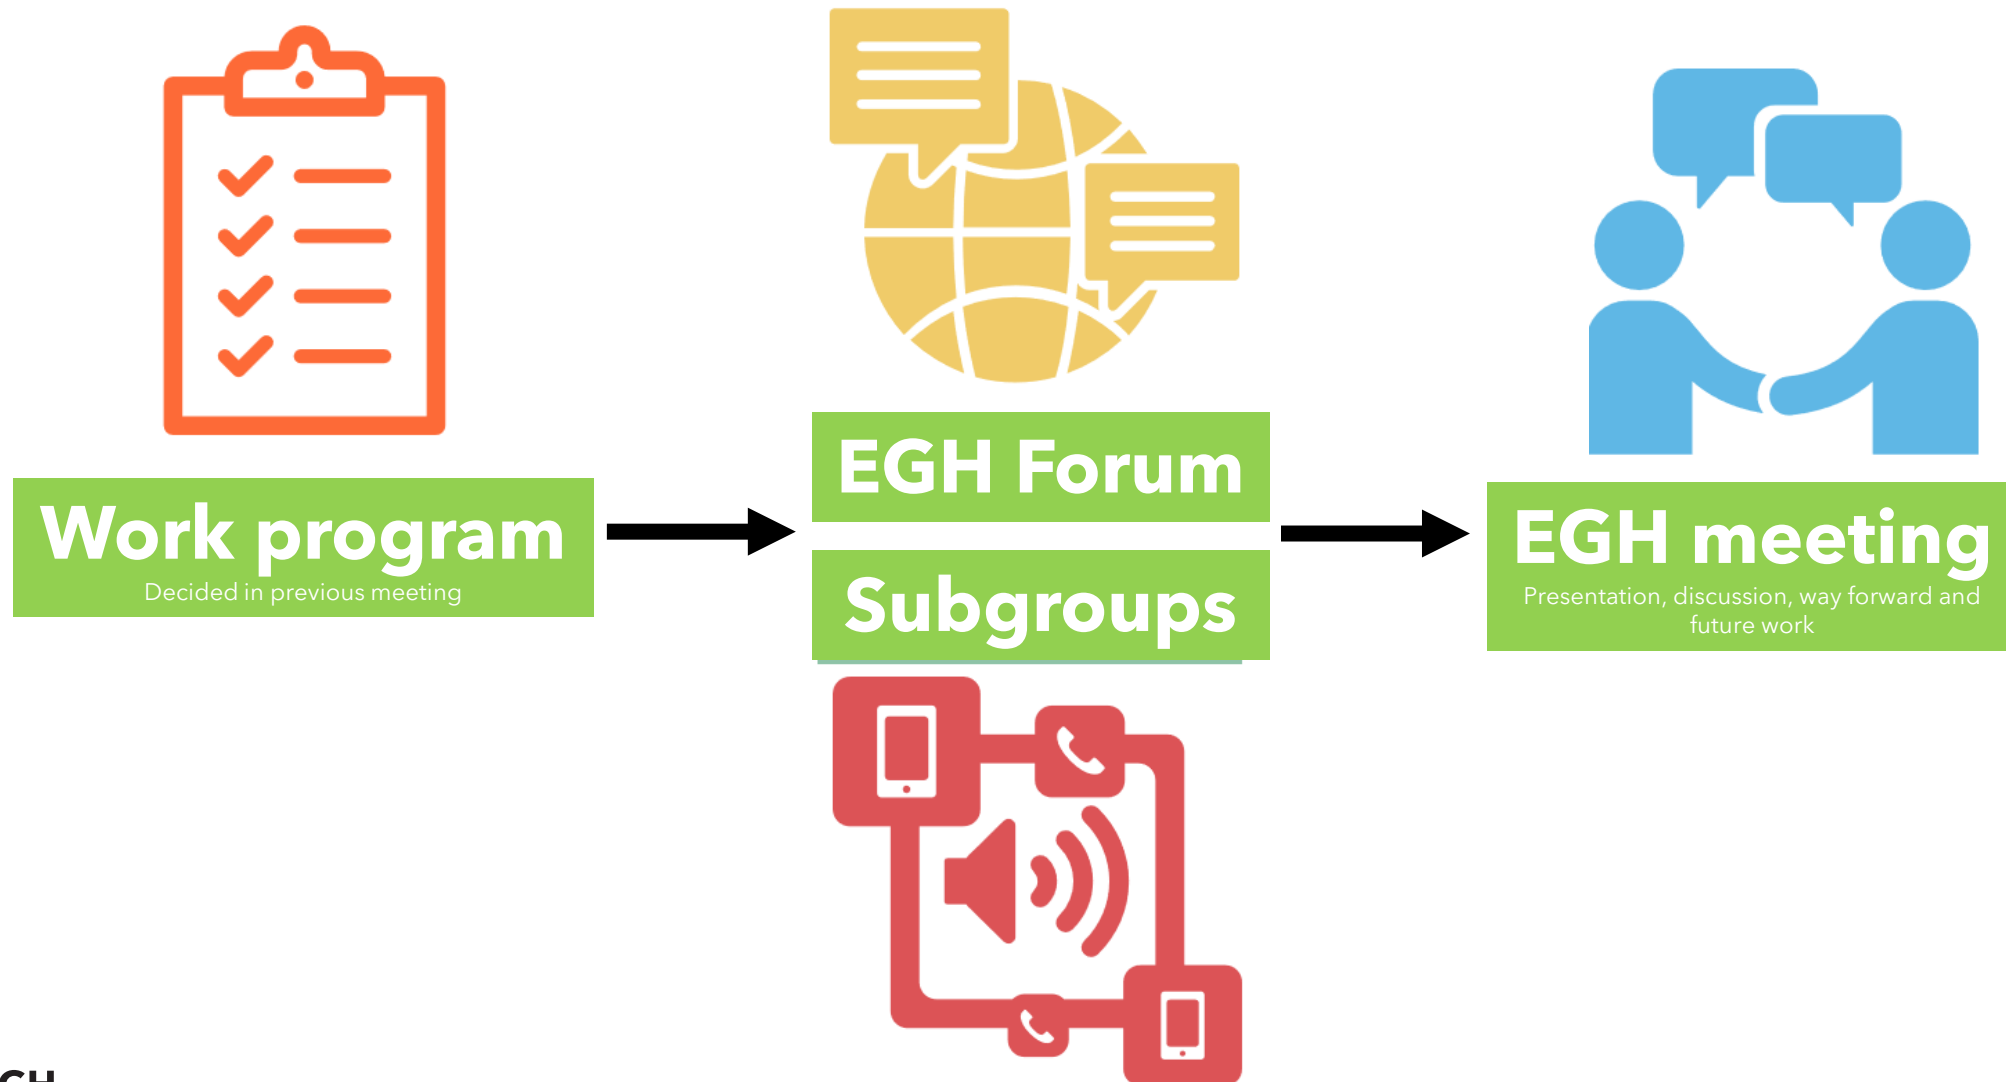

To decide on ICT indicators from the demand side to be **collected through the ITU statistical questionnaires** on access and use by households and individuals.

To **periodically review the ITU Manual for Measuring ICT Access and Use by Households and Individuals**. Update the Manual to reflect revised ICT household indicators, experiences and lessons learnt by national statistical agencies around the world.

To work with the Expert Group on Telecommunications/ICT Indicators (**EGTI**) on issues related to indicators and topics that are common to both groups.

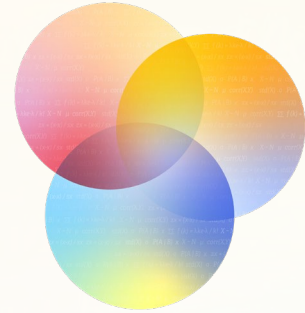

## Meeting documentation and format

- Briefing documents available for subgroup sessions (IDI and ICT skills)
  - Published on the meeting website and the EGH Forum
