

Inside the ITU DataHub and the Statistics Team's transformation journey

Information session

ICT Data and Analytics Division
7 September 2026

ITUWTIS
GENEVA**2026**

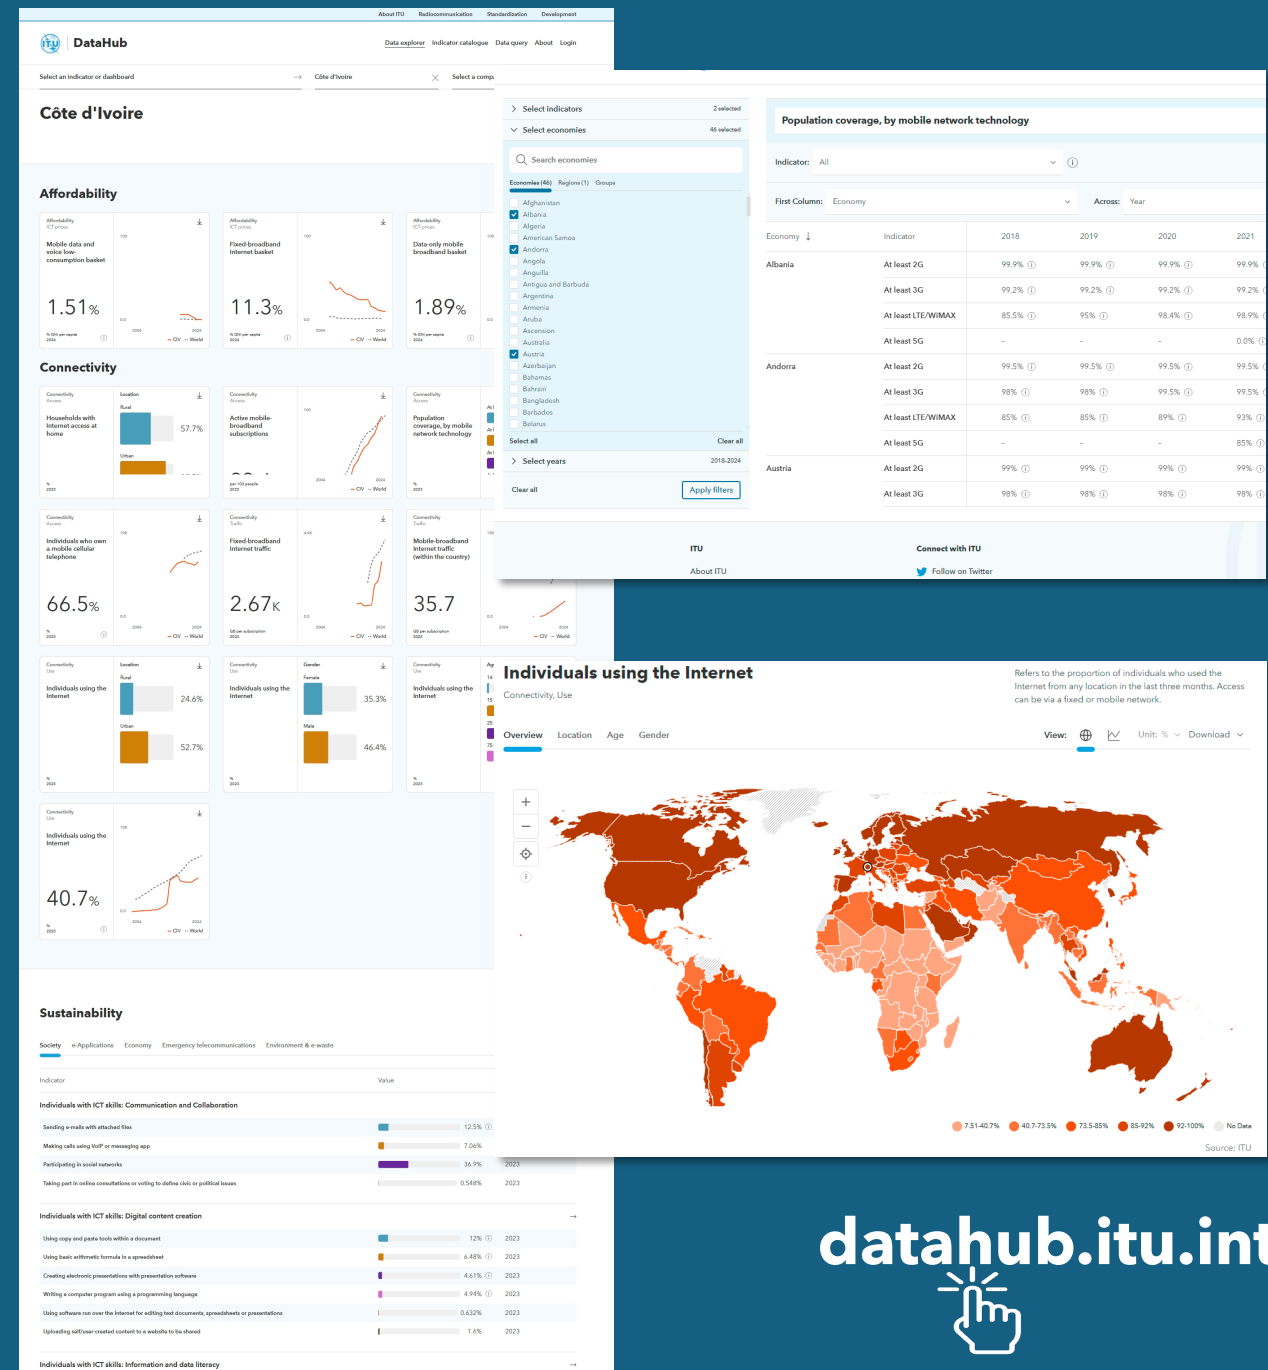

Agenda

- Update on DataHub
- AI assistant prototype
- Get feedback on our publications, incl. Facts and Figures
- Q&A

Demo: ITU DataHub's latest development

The ITU DataHub features trusted, up-to-date statistics and regulatory data on digital development.

It enables users to track progress and design evidence-based policies. It is continuously enhanced with new features and enriched datasets

datahub.itu.int

ITU DataHub

Recently launched features

- Landing page
- Pinned indicators
- Data coverage tab
