

Future work: EGTI 2027

Panayiotis Kyriakides

EGTI Chair

September 2026

Guidelines for establishing subgroups

- At least 10 participants signing up
 - Experts with experience to share;
 - Commitment and time available to participate regularly in meetings throughout the working cycle
- Prioritize topics (not more than 3 subgroups, incl. joint subgroups)
- Encourage regional diversity
- Sign-up today (indicate expert name and motivation during this session or in the EGTI forum) – open until 10 October 2026
- Scope of work will be established by Chair in consultation with the Secretariat
- Subgroup lead appointed by ITU in agreement with the Chair

Potential items and suggestions

- Submarine cables
- QoS
- OTT use indicators
- Emerging technologies

As subgroups?

Joint EGTI-EGH
subgroup on IDI
development

Satellite-based
broadband
connectivity

Indicators on data
centers and related
infrastructure

Forum discussion topics?

Measuring device affordability

National greenhouse gas
emission monitoring indicators

Sharing best practices

To ensure active participation...

Sufficient experience to share;

Available capacity to commit to subgroup work

At least 10 participants sign up

Prioritize topics (focus on stats/data collection)

Future work - EGTI 2027

The following topics were flagged for future work:

- Joint EGTI-EGH subgroup on the development of the ICT Development Index (IDI)
- Extend the mandate of the subgroup on satellite-based broadband connectivity
- Develop indicators on data centers and related infrastructure
- Develop a methodology for measuring device affordability
- Forum discussion topic on National greenhouse gas emission monitoring indicators
- Sharing best practices
- Potential topics: measuring Quality of Service (QoS), OTT use, indicators related to submarine cables, emerging technologies

Based on the guidelines, for a subgroup to be launched, at least 10 committed participants should sign up by 10 October 2026 in the online forum

Thank you
