Agenda, working methods and presentation of documents

September 2026

EGTI/EGH
Meetings

| Mission of EGH

To [review existing and develop new indicators](#) on household ICT access and individual ICT use, including reviewing and developing harmonized definitions, response categories and/or classificatory variables to stay current with technological and behavioral changes.

To decide on ICT indicators from the demand side to be [collected through the ITU statistical questionnaires](#) on access and use by households and individuals.

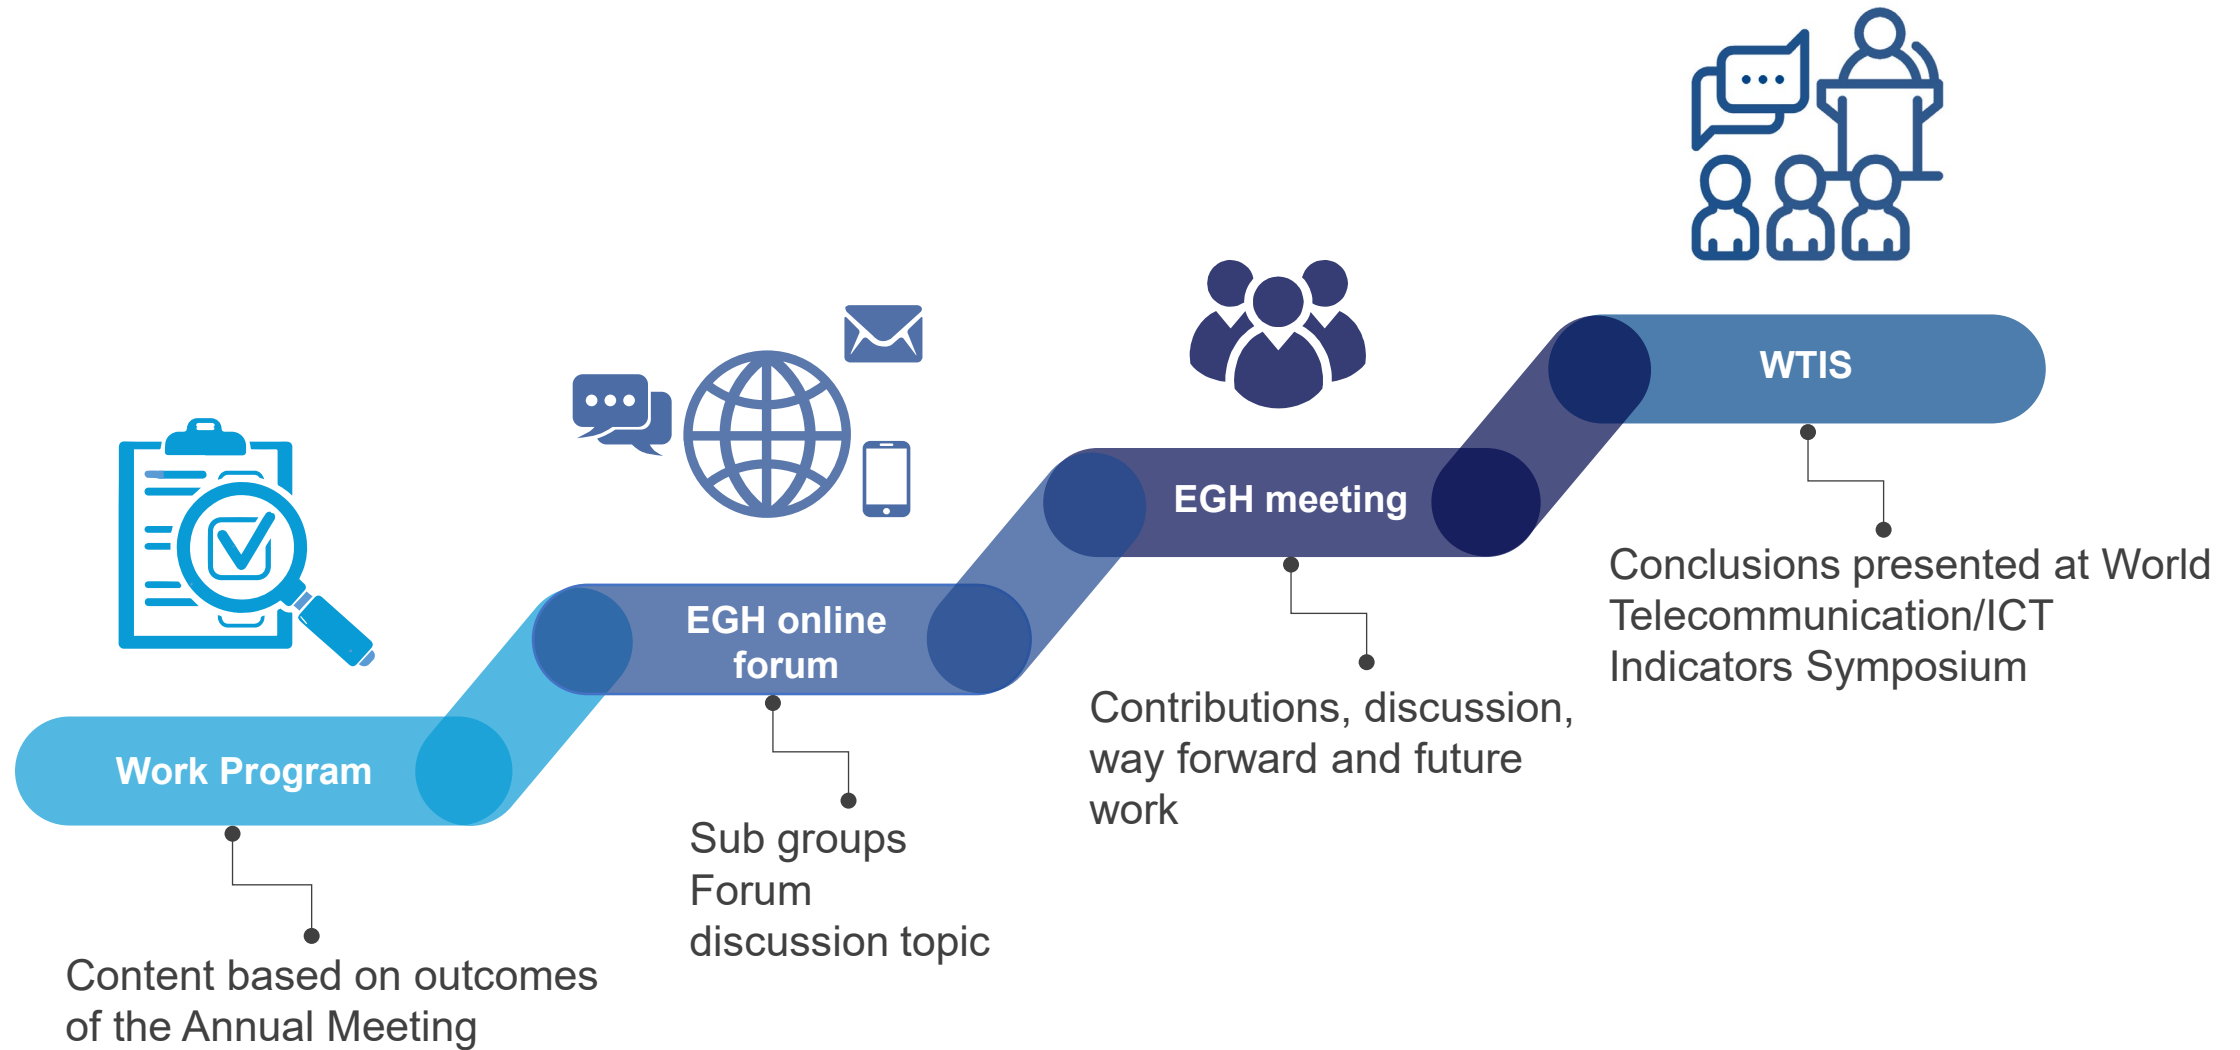

To [periodically review the *ITU Manual for Measuring ICT Access and Use by Households and Individuals*](#). Update the *Manual* to reflect revised ICT household indicators, experiences and lessons learnt by national statistical agencies around the world.

To work with the Expert Group on Telecommunications/ICT Indicators ([EGTI](#)) on issues related to indicators and topics that are common to both groups.

The EGH working method

Meeting documentation and format
