

13<sup>th</sup> Meeting of the  
Expert Group on Telecom/ICT  
Indicators (EGTI)  
12-14 September 2022

Agenda, working methods and  
presentation of documents

---

# EGTI's Mission

---

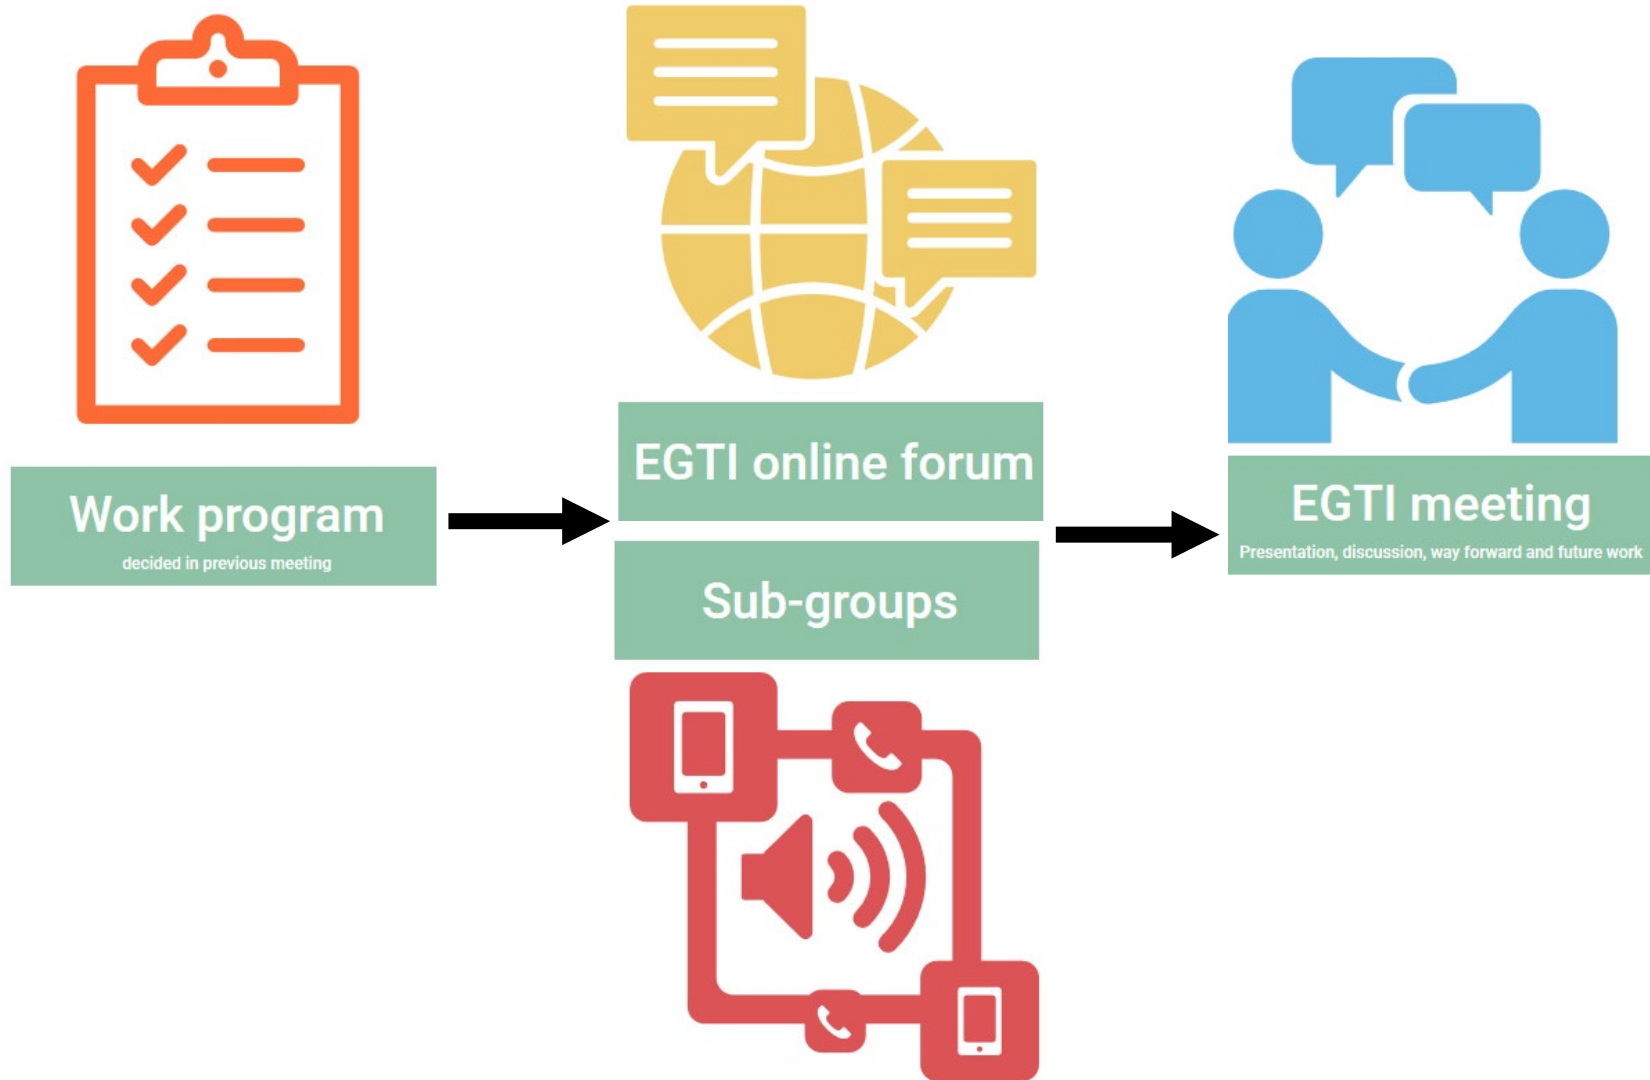

The scope of the work of EGTI can be summarized as follows:

- To review existing and develop new telecommunication/ICT supply-side indicators on a continuous basis, including reviewing and developing harmonized definitions and data collection methodologies to keep up to date with the fast changing nature of ICT technologies and services.
- To decide on ICT indicators from the supply side to be collected through the ITU statistical questionnaires on telecommunications/ICTs.
- To periodically review the ITU Handbook for the Collection of Administrative Data on Telecommunications/ICT. The Handbook should be updated to reflect the updated definitions and methodologies.
- To work with the Expert Group on ICT Household Indicators (EGH) on issues related to indicators and topics that are common to both groups.

*in EGTI's Revised Terms of Reference (November 2017)*

---

# EGTI's method of work

# Agenda Topics

---

## DAY 1

1. Introduction of the EGTI meeting
2. Measuring 5G/Machine-to-Machine (M2M) subscriptions and IoTs
3. Measuring middle-mile connectivity

## DAY 2

4. Introduction to new ITU statistical products
5. Outcome of the review of the indicators collected in the ITU WTI Long Questionnaire
6. Future work

## DAY 2

7. The development of indicators measuring OTT services
8. Presentation of summary and conclusions of the EGTI meeting

# Meeting format/documentation

---

- For each agenda topic, there is a briefing document containing the summary of the discussions that will guide our discussions. These documents were posted online on the EGTI online forum (see web address below).
- Sessions will run from 13:00H to 16:00H (Geneva time).
- Countries are encouraged to actively participate in the discussion.
