**Title:** Possible framework to structure discussions

---

The purpose of this document is to provide a suggested possible framework to structure the discussions of this meeting. The framework is based on a categorization of issues that have been raised in a number of forums:

- 1 ccTLD administrative contact is not in the country, where:
  - 1.1 this situation is explicitly approved by the government, or
  - 1.2 this situation is not approved by the government
- 2 ccTLD administrative contact is in the country, where:
  - 2.1 there are good relations between the government and the ccTLD operator, or
  - 2.2 there are some tensions between the government and the ccTLD operator
