

**Only ITU Telecom Africa 2004 can open up the unique opportunities available in the region's telecommunications market.**

Access the tremendous growth of the telecommunications market in Africa through the only regional Exhibition and Forum that brings together key government and industry players. This unique opportunity allows Ministers, Regulators and the telecom industry to forge partnerships, explore new technologies, adopt best practices, and shape the future of Africa's telecommunications industry. Join this opportunity to connect with the leaders who are changing how Africa communicates at ITU TELECOM AFRICA 2004.
