Welcome Message

A warm "Welcome" from the International Telecommunication Union (ITU) and Ministry of Communications and Information Technology (Egypt, Arab Rep. of)

It is our pleasure to welcome the Youth Forum Fellows to Cairo and to extend our warmest hospitality to you during your participation in this event.
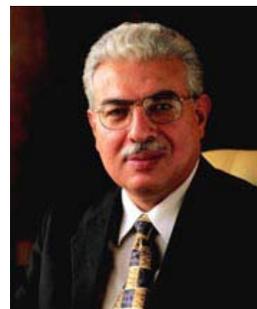

We hope that the information contained in this guide book will enable you to make the most out of this Event and also encourage you to explore Cairo.

There are numerous places to visit and experience in this historic and dynamic city of contrasts.

We wish you all a pleasant stay in the City of the Nile and the pyramids.

Yoshio UTSUMI
Secretary-General

Youth Forum
Programme

Monday	
03/05/04	**YF.1**
14:00–15:00	**Youth Forum Opening**
Mycerinos Room D	

Introduction

The Youth Forum at ITU TELECOM AFRICA 2004 is the second Youth Forum organized during an ITU TELECOM AFRICA event, and is designed to introduce the Youth Fellows from all over Africa to the challenges and opportunities of the information and communication technology (ICT) sector. In the course of a three-day programme, the Youth Forum will address three basic themes: technology and applications; telecommunication policies and regulations; and finance and business, as well as the relationships among these themes. It will show how these are fundamental to the sector and examine how all players involved can interact successfully, and for their mutual benefit, to ensure that ICTs serve as a prime mover both of economic and social development and of the fundamental human right to communicate and access information.

The participants of the Africa Youth Forum will have the opportunity to attend a programme designed especially for them, benefiting from interactive discussions and mentoring opportunities with eminent leaders in the ICT field. Youth Fellows will also have opportunities to attend the ITU TELECOM AFRICA 04 Forum, visit the exhibits and interact with other participants. It is the wish of the organizers and sponsors that Youth Fellows emerge from this event with a view that the ICT sector is an exciting and vibrant one that is fundamental to the development of their countries and the region; and that the sector requires an extraordinary variety of skills and competencies in the present and future, i.e., lawyers, economists, engineers, etc. There is challenging road ahead, offering opportunities for those who wish to make a valuable and meaningful contribution, either professionally and/or personally.

Chair:
Ms Walda ROSEMAN, CEO, CompassRose International (United States)

Welcome:
1   **Mr Yoshio UTSUMI**, ITU Secretary-General
2   **H.E. Dr Ahmed Mahmoud NAZIF**, Minister, Ministry of Communications and Information Technology (Egypt, Arab Rep. of)
3   (Keynote speaker to be confirmed)
4   **Mr Stewart Dale WHITE**, Group Public Policy Director, Vodafone Group Services Ltd (United Kingdom)

Monday	
03/05/04	**YF.2**
15:30–18:30	**Technology and Applications**
Mycerinos Room D	

Legacy wireline telecommunication networks in Africa generally did not succeed in providing adequate telecommunication services. When the majority of a nation's people do not have access to telecommunication infrastructure, they are also denied the economic, social, educational and other benefits that ICTs deliver. How can wireless and other technologies and IP-enabled services be deployed to bring Africans relevant, affordable and reliable ICT applications? The introduction of mobile services, such as GSM telephony, has led to a telecom revolution in many African countries. In most cases, the number of mobile connections is now higher than the number of fixed-line connections, and it has taken the new players very few years to achieve this level of penetration. Prices on mobile connections and traffic have decreased significantly, mainly due to the increased competition in the market and to more efficient and flexible technologies. Most countries now have at least two mobile operators; and in some countries, up to five mobile licences have been issued. Wireless broadband, satellites and next-generation mobile communications promise Africans enhanced potential for access to broadband services, including Internet and inexpensive voice options such as Voice over IP (VoIP). Advances under way in multilingual domain names, digital conversation and the introduction of IPv6 will ease the use and open up new opportunities for Africans. This session will provide Youth Fellows an opportunity to understand and discuss new technologies and applications and their implications for the African continent.

Chair:
Ms Walda ROSEMAN, CEO, CompassRose International (United States)

Panel of Experts:
1   **Mr John MARINHO**, Vice President Global Mobility Offer Management, Lucent Technologies
         (United States)
2   **Ms Lyndall SHOPE-MAFOLE**, Chairperson, Presidential National Commission on Information
         Society and Development (South Africa Rep. of)
3   **Ms Khedija GHARIANI**, Président-Directeur général, Agence nationale des fréquences
         (Tunisia)
4   **Ms Anne-Rachelle INNE**, Policy Analyst, ICANN (Belgium)
5   **Mr Brahima SANOU**, Head, Regional Office, Africa (ITU BDT)

Tuesday	
04/05/04	**YF.3**
14:30–17:30	
Mycerinos Room D	**Telecommunication Policies and Regulations**

A major focus of both ITU and African regional and national telecommunication organizations is the expedited achievement of universal access for all people to basic telecom and ICT services (voice, data and multimedia). To meet this goal, national governments have found it important to define and adopt clear and effective policies and regulations to guide the fast-paced change in the telecom and ICT environment. The result has been significant sector reform, including the establishment of regulatory authorities by most African governments. Key objectives of sector reform are to: ensure everyone's right to telecom/ICT access (telecommunications within easy reach from public access points or shared facilities); improve telecommunication service coverage and quality; reduce prices; multiply choice; promote innovation in service provision; create a clear, predictable and stable regulatory environment to attract investment (national and foreign); and establish a clear set of rules defining the responsibilities of the regulatory authority. Governments face many challenges in achieving these objectives, including the need to balance interests between public policy objectives and the needs and realities of business.

To achieve their mandate, successful regulators and policy-makers require a variety of qualified professionals, including lawyers, economists, managers and technical experts.

Chair:
Mr Stewart Dale WHITE, Group Public Policy Director, Vodafone Group Ltd (United Kingdom)

Panel of Experts:
1. **H.E. John NASARIRA**, Minister of Works, Housing and Communications (Uganda)
2. **H.E. Adama SAMASSEKOU**, President, Preparatory Committee (Geneva Phase) of the World Summit on Information Society (WSIS) Presidential Office (Mali)
3. **Dr Ekwow SPIO-GARBRAH**, Chief Executive Officer, Commonwealth Telecommunications Organisation (CTO) (United Kingdom)
4. **Prof. Willy JENSEN**, Director-General, Norwegian Post and Telecommunication Authority (Norway)
5. **Eng. Amr M. Abdel Kader HASHEM**, Manager, Communications Policy Unit, Ministry of Communications and Information Technology (Egypt, Arab Rep. of)
6. **Mr David MELTZER**, General Counsel and Senior Vice President Corporate and Regulatory Affairs, Intelsat Global Services Corporation, LLC (United States)
7. **Ms Margarida Evora SAGNA**, Coordinator, West Africa (ITU BDT)

Wednesday	
05/05/04	**YF.4**
09:30–12:30	
Mycerinos Room D	**Finance and Business Opportunities**

There is little doubt today that a well functioning and pervasive ICT infrastructure is essential to a country's social and economic development. Building and operating nationwide networks and services in Africa require new business models and an investment-friendly, or "enabling", environment. The World Summit on the Information Society (WSIS) in 2003 adopted a Declaration of Principles and a Plan of Action for creating such an environment and, by 2015, for achieving many of the Millennium Development Goals adopted by the United Nations in 2000. One centrepiece of the WSIS Declaration and Action Plan is recognition that new kinds of partnerships involving government, business and civil society will be required to forge sustainable business approaches and attract investment for the build-out of ICT infrastructure and services. Africa offers enormous growth potential for ICT companies, but potential investors still tend to view doing business in Africa as high risk. Each stakeholder – the potential investors (local, national and international), the ICT companies or other entities that might create applications using ICTs, governments, and regional/international organizations – has its own perspective, objectives and requirements. This session will examine the financial and business dynamics of building sustainable ICT services from the perspective of multiple stakeholders, and will explore opportunities for youth to develop ICT-enabled businesses.

Chair:
Mr Jay NAIDOO, Chairman, Development Bank of Southern Africa (South Africa)

Panel of Experts:
1. **Mr Ernest NDUKWE**, Chief Executive Officer, Nigerian Communications Commission (NCC) (Nigeria)
2. **Mr John STOWE**, Managing Director, Africa, Net2Phone (United States)
3. **Mr Cheikh Tidiane MBAYE**, Director General, Sonatel (Senegal)
4. **Mr Ridha GUELLOUZ**, Advisor to the Minister of Technologies, Communication and Transports (Tunisia)
5. **Mr Ruiz FERNANDES**, President/Chairman, mCel (Mozambique)
6. **Mr Tereffe RAS-WORK**, Secretary General, WorldTel Assembly of Governors (Switzerland)
7. **Mr Miloud AMEZIANE**, Head, Regional Office, Arab States (ITU BDT)

Wednesday	
05/05/04	**YF.5a**

16:30–18:00	**Forum Closing**
Mycerinos Room A	

Thursday	
06/05/04	**YF.6**
18:00–19:00 *Mycerinos Room D*	**YF Closing Session**

This session will mark the formal closing of the ITU TELECOM AFRICA 2004 Youth Forum. Here will be an opportunity for Officials and Youth Fellows to offer their perspectives on the Youth Forum, collect their certificates and be photographed as a group.

Chair:
Ms Walda ROSEMAN, CEO, CompassRose International (United States)

Closing Remarks:
1   **Mr Roberto BLOIS**, ITU Deputy Secretary-General
2   **Mr Hamadoun I. TOURÉ**, Director, ITU Telecommunication Development Bureau
3   **Mr Fernando LAGRAÑA**, ITU Telecom Executive Manager
4   **Dr Tarek KAMEL**, Senior Advisor to the Minister, Ministry of Communications and Information Technology (Egypt)
5   **Two Youth Fellows** (presenting the Final Declaration)

Arrival Guide

About the Event

Organized by the International Telecommunication Union (ITU) and hosted by the Government of Egypt, ITU TELECOM AFRICA 2004 will be held at the Cairo International Convention and Exhibition Centre from 3 to 8 May 2004.

Launched more than three years ago (first in Africa, second in Asia and third at ITU TELECOM WORLD 2003), the Youth Forum will go some way towards fulfilling ITU's primary mission of "extending the benefits of the new telecommunication technologies to all the world's inhabitants". With this conviction in mind, ITU has invited over one hundred young men and women from its 53 Member States in Africa to participate in this Youth Forum during ITU TELECOM AFRICA 2004 in Cairo which will be held from 3 to 8 Mary 2004. http://web/ITU-D/events/africa_youthforum/index.html

The primary aim of the Youth Forum at ITU TELECOM AFRICA 2004 is to empower a selected group of university-age youth to take on the reins of leadership. This Youth Forum will also enhance synergy between governments and universities or other institutions of higher learning to harness the benefits of technology for greater education, health and economic growth for the people of Africa as a whole.

Digital access is the great equalizer of our times and digital opportunities are a means to development. While the number of graduates from institutions of higher learning has been growing from year to year, the availability of jobs has been affected by the current economic uncertainty. Challenges for young talents are increasing. Governments are mobilizing resources to bring in new opportunities so that these young talents can take steps to foster and fulfil a vision of full and active citizenship, without leaving their communities.

Chaperone Group

A Chaperone Group has been appointed by ITU to take care of your daily activities during your stay in Cairo. Should you have any queries or concerns regarding the information below and any aspects about Cairo in general, please feel free to contact the Chaperone Group Leader.

Emergency contacts (24 hours) from 2 to 7 May 2004:

Name of the Head of the Chaperones
Ms. Maha Khalil Mohamed RASHAD

Mobile: +20 105 265123

The Youth Forum Venue

The Youth Forum will be held in the Cairo International Convention and Exhibition Centre, parallel to ITU TELECOM AFRICA 2004.

Address:

CAIRO INTERNATIONAL CONVENTION AND EXHIBITION CENTRE

Nasr Road, Nasr City,
Cairo, Egypt

Tel.:	(+20 2) 4018948
	(+20 2) 4027370
	(+20 2) 4027401
	(+20 2) 4018975
Fax:	(+20 2) 2634640
	(+20 2) 4018950
URL:	www.cicc.egnet.net

Language

All Youth Fourm sessions will be conducted in English and French, with simultaneous interpretation, while side programmes and social functions will be conducted in English only.

ITU TELECOM AFRICA 2004 Youth Forum Badges

Please wear your ITU TELECOM AFRICA 2004 Youth Forum Badge (collected at registration) for all activities and working sessions during the Event period. Your badge will improve the networking opportunities with your peers and serve as your admission to all forum sessions and activities.

Dress Code

National costume will be the formal attire for the Welcome Reception and you are reminded to bring along your own national attire. Please refer to the table below for the dress code of the various functions you could be attending:

Date		Event to note	Dress Code
Sunday	02/05/04	Local Tour	Comfortable attire
Monday	03/05/04	Opening Ceremony and Youth Fourm Opening	Smart Casual
		Welcome Reception (evening)	Formal attire (national costumes)
Tuesday	04/05/04	Forum Opening including lunch Session	Smart Casual
Wednesday	05/05/04	Youth Forum Session and lunch session	Smart Casual
Thursday	06/05/04	Youth Forum Working Session	Smart Casual
		Youth Forum Closing	Smart Casual
Friday	07/05/04	Farewell Reception	Comfortable attire

For laundry facilities and prices please contact the reception desk at your hotel before using the service.

Meals

Lunch is arranged on Tuesday 4 and Wednesday 5 May 2004 at the Convention and Exhibition Centre, in the Eugenie Restaurant. Please refer to the Youth Forum Programme Activities Overview.

Transportation

Coaches and transportation for transfer to the official programmed activities have been arranged. All Youth Fellows are required to be punctual for all sessions and functions.

Smoking Policy

Please note that smoking is prohibited in all meeting rooms within the Cairo International Convention and Exhibition Centre. When you use your accommodation, please follow the rules.

Personal Belongings

Please take good care of your own personal belongings. The organizer is not responsible for any loss or damage. It is not recommended that you bring valuables.

People with Special Needs

Every effort is made to ensure people with special needs are catered for. Should you require any specific assistance, please inform the Chaperone Group to seek assistance during the Youth Forum period.

Upon Your Arrival in Cairo

Immigration and Custom Formalities

Immigration formalities to enter Cairo are fairly straightforward. A passport (that must be valid for six months before expiring) or visa is essential for entry to Cairo (as applicable).

Event posters will be posted at the designated immigration counters to facilitate the immigration process of the event participants. To assist the immigration officials and the Cairo Chaperone Group members in identifying you as a participant of the Youth Forum, please hold in your hand upon arrival the letter which will be e-mailed or faxed to you before your arrival. It will also assist you for identification purposes during your release/baggage claim.

Airport Transfer

ITU TELECOM AFRICA 2004 Chaperones will greet you upon your arrival at Cairo Airport.

You will be escorted to an awaiting coach for transfer to the Cairo Ramses Hilton Hotel (your accommodation during your stay). You will be given a short briefing during the trip to your hotel on the activities on your arrival day and throughout the course of the week. Please advise the Chaperones and ITU (julienne.keating@itu.int or fellowships@itu.int) if you have made any changes to your arrival flight schedule previously transmitted to ITU. This will better facilitate our planning and organization.

You may also contact the ITU TELECOM AFRICA 2004 Welcome Desk at Cairo Airport if you encounter any difficulties or have any queries upon your arrival.

Accommodation

You will be allocated a room shared with another Youth Fellow of the same gender at the Ramses Hilton Hotel, which is located at:

RAMSES HILTON HOTEL	
1115 Cornishe El Nil Street, Cairo	
Tel.:	(+20 2) 577 7444
Fax:	(+20 2) 394 6938
	(+20 2) 575 712
E-mail:	reservation@hilton.com
	rhinet@intouch.com
Internet:	ramses.hilton@hilton.com

The Ramses Hilton Hotel is located in the heart of Cairo, overlooking the Nile, in walking distance of the Egyptian Museum and in walking distance from the main Cairo shopping area. It is within 15 to 20 minutes from the venue by shuttle bus.

Registration

Please note that, after being escorted by designated coaches to the Ramses Hilton Hotel, you will be greeted by Chaperone Group members and will be given an ITU TELECOM AFRICA 2004 briefcase, a Welcome Kit, your ITU TELECOM AFRICA 2004 Youth Forum Badge and a key to your room. Please note that if you lose your key, you will be charged to your own account.

A Chaperone Group member will be available at the registration counter should you have any concerns or queries.

Briefing

Date: Sunday, 2 May 2004 at 1500 hours at the Ramses Hilton Hotel

All Youth Fellows will be given a briefing on the entire programme at the hotel. Then the Local Tour will be conducted. You will be divided into groups and assigned a chaperone as your group leader. The leader will be responsible for your group throughout the event. Should you require anything or have any queries during your stay, please feel free to approach your group leader and ask for assistance. (Group leaders' contact details will be distributed during the briefing.)

About Cairo

Climate

During early May, the weather in Cairo is usually warm and dry with temperatures ranging between **28** and **31**. For more details, please refer to this website: **CNN WEATHER FORECAST**

Currency

The local currency is the Egyptian Pound (EGP). The Egyptian Pound is pegged to the USD at a rate of USD 1 = EGP 620.00, although the rate does vary slightly. Denominations include EGP 10, EGP 20, EGP 50 and EGP 100 notes. Coins come in denominations of 5, 10 and 25 piasters.

Cairo is a major international city and all major currencies and travellers' cheques can be exchanged during working hours. An exchange service will also be available at the Cairo International Convention and Exhibition Centre. More details will be given during the briefing session.

Electricity

The voltage in Cairo is 220 volts, 60 cycles. The plug/socket system in Cairo is a 2-round-pin type. If you bring your own electrical equipment, please remember to bring the necessary adaptors.

Water

All water comes direct from government mains in Cairo and satisfies the United Nations World Health Organization standards. Bottled water is widely available in supermarkets.

Cairo Identification

Visitors should carry a passport with entry visa (if required) or other identification with a photograph at all times during their stay in Cairo. Your passport will be sufficient.

Local Time

At this time of year, the local time in Cairo is GMT +2.

Population

More than 14 million people live in Cairo. Almost 95% of the population is Arab-speaking. English is also widely spoken.

Telecommunications

Local calls can be made from the Ramses Hilton Hotel in Cairo where there are coin phones costing 30 piasters per minute. If you wish to make long-distance calls, arrangements should be made with the hotel receptionist. You are advised to make calls in public coin boxes or use card phones.

The country code for Egypt and Cairo is +20 2. If you want to make local calls, dial directly the local telephone number. The normal prefix for making overseas call is +20 but the exact prefix and manner of dialling varies with different phone operators, and visitors should follow dialling instructions printed on their phone cards.

At the Cairo International Convention and Exhibition Centre Youth Forum Lounge, access to the Internet is available.

Dos and Don'ts

As a Youth Fellow participating in the programme activites of the ITU TELECOM AFRICA 2004 Youth Forum, please
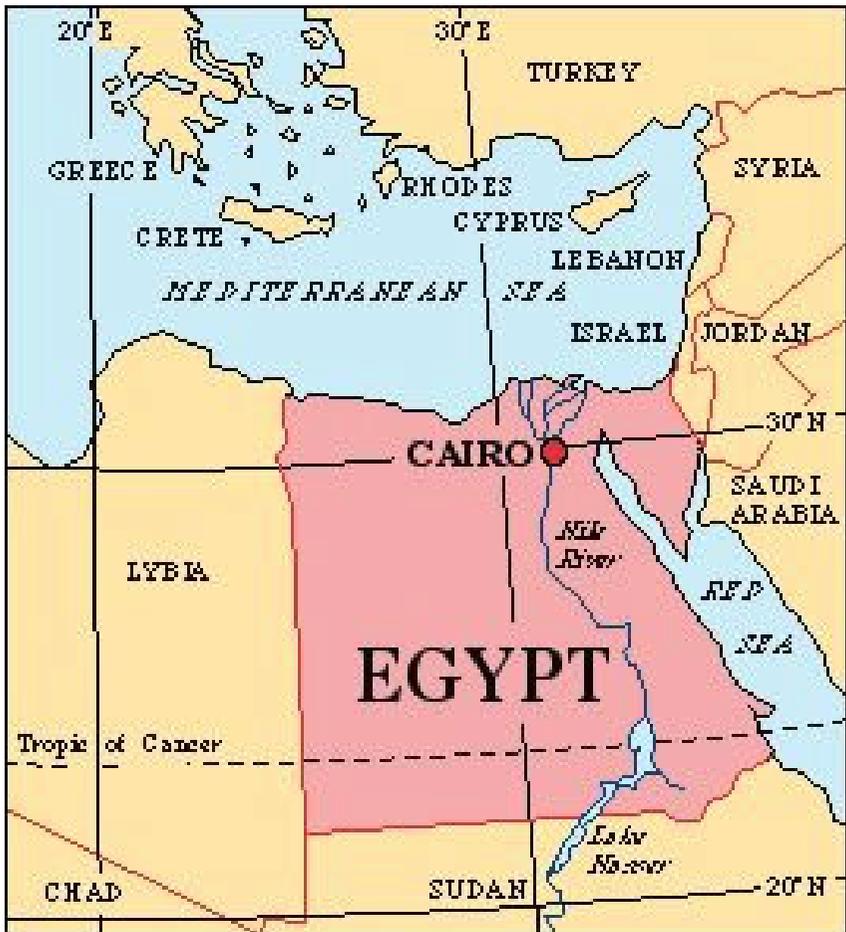

Do

- Be punctual for all sessions and functions
- Have fun and take full advantage of the forum Programme and Exhibitions
- Take the initiative to introduce yourself to each other, forum speakers and participants and make new friends
- Feel free to ask questions in all sessions and share your energy and commitment with the ITU TELECOM AFRICA 2004 Forum
- Attend all events/functions pre-arranged by ITU and the Cairo Authorities
- Be certain that your group leader knows where you will be at all times and always carry the contact number of your group leader with you
- Wear appropriate clothing according to the dress code of specific functions
- Be responsible for the safety of your personal belongings and property. The organizer is not responsible for any loss or damage. Safe deposit box facilities are available at the front desk of your accommodation
- Report all problems and requirements to your group leader
- Keep your accommodation area clean, tidy and keep noise to the minimum at all times
- Take care of the equipment and facilities provided by ITU and the Host Country
- Wear your ITU TELECOM AFRICA 2004 Youth Forum badge during all the programme activities; for all social functions, you should also bring along relevant invitations
- Behave yourself, respect and follow the instructions of your group leader
- Respect other people's space and feelings by being courteous at all times
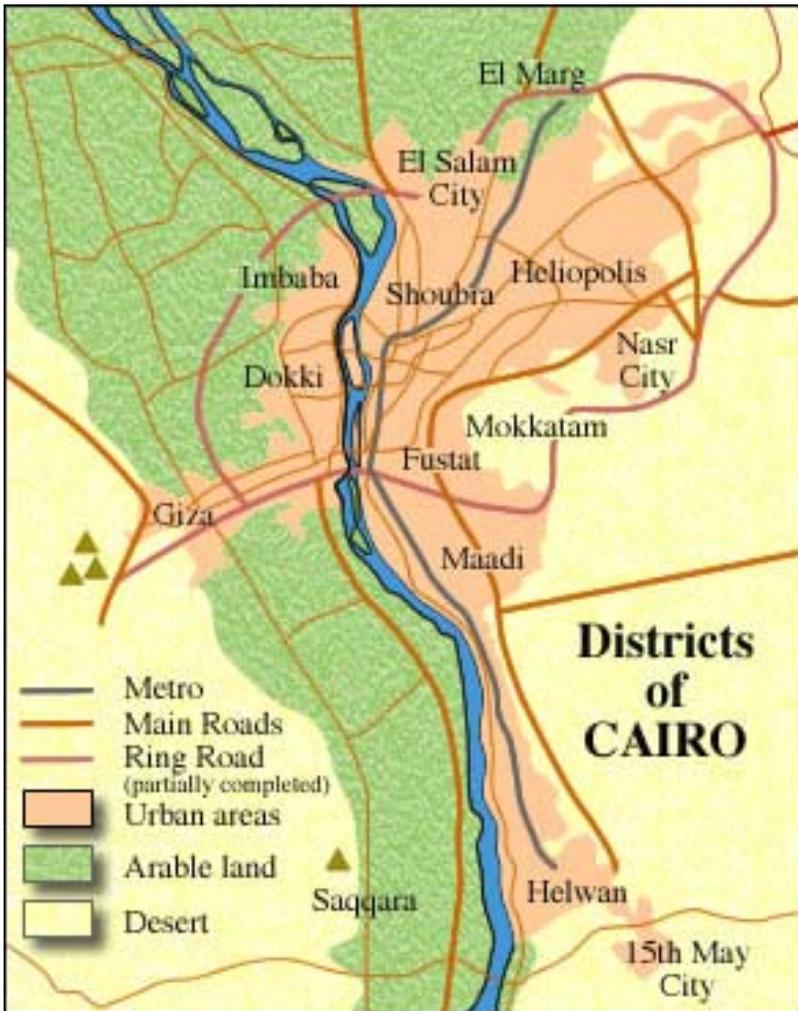

Don't

- Drink alcohol, smoke and gamble on the accommodation premises
- Disturb others by unnecessary noise or intrusion
- Curse or use foul language
- Venture out alone or leave your group without prior permission and agreement from your group leader
- Enter the rooms of the opposite gender, unless invited
- Invite friends or guests (other than youth fellows) to your room or to join the Youth Forum programme activities
