### **To Administrations of Member States of the ITU and Radiocommunication Sector Members**

**Subject:** Draft 2005-2008 Operational Plan for the ITU-R Sector

Please note that the draft four-year rolling operational plan for the ITU-R Sector, for the period 2005-2008, is now available at the following URL:

<http://www.itu.int/ITU-R/information/plans/index.html>.

To respond to the membership expectations and to the recommendations and findings arising from the present consultancy project, this draft operational plan is structured in a new, result-based format. It also contains indications on the Bureau's accomplishments in 2004, compared with the objectives set forth in the ITU-R Operational Plan for this period.

In view of its volume and in line with the Council recommendations regarding the reduction of the costs of documentation, the draft plan is currently available in electronic format only.

The draft plan is available in English only and will be considered at the forthcoming meeting of the Radiocommunication Advisory Group (22-26 November 2004).

After review by the RAG, the revised version of the operational plan will be submitted to the Council for further review and approval.
