Addendum 1 to
Administrative Circular
CA/174

24 September 2008

To Administrations of Member States of the ITU and Radiocommunication Sector Members

Subject: World Radiocommunication Seminar 2008*
(Geneva, 8-12 December 2008)

1 The Radiocommunication Bureau announced, in Administrative Circular CA/174, its intention to organize the World Radiocommunication Seminar dealing with the use of the radio-frequency spectrum and the satellite orbits, and, in particular, with the application of the provisions of the ITU Radio Regulations. The Seminar will be held at the ITU Headquarters in Geneva from 8-12 December 2008. We would be pleased, at this time, to provide the participants with the following additional information.

2 A detailed programme of the Seminar events, including the respective room assignments, is available on the BR website at <http://www.itu.int/itu-r/go/geneva-2008> and will be updated as new or modified information becomes available.

3 Please note that the Seminar will be conducted in a “paperless” environment, i.e. Seminar proceedings will be available on the website. In addition, a flash memory stick (USB) containing the Seminar documents and information will be provided at the time of registration.

4 As mentioned in CA/174 and in order to fully take advantage of the various workshops that will be held during the period of the Seminar, participants are requested to bring their laptop PCs.

* This denomination replaces the previous title of the Biennial Seminar of the Radiocommunication Bureau.

Under special circumstances, the BR Secretariat will endeavour to provide a limited number of laptops for use by the participants during the Seminar and for which a deposit will be required.

Yours faithfully,

Valery Timofeev
Director, Radiocommunication Bureau

Distribution:

- Administrations of Member States of the ITU
