**Administrative Circular
CACE/508**

29 April 2010

**To Administrations of Member States of the ITU, Radiocommunication Sector Members,
ITU-R Associates participating in the work of Radiocommunication Study Group 5
and the Special Committee on Regulatory/Procedural Matters**

Subject: Radiocommunication Study Group 5

- Adoption of 1 new Recommendation and 7 revised Recommendations by correspondence and their simultaneous approval in accordance with § 10.3 of Resolution ITU-R 1-5 (Procedure for the simultaneous adoption and approval by correspondence)
- Suppression of 3 Recommendations

Terrestrial services

By Administrative Circular CAR/291 dated 19 January 2010, 1 draft new Recommendation and 7 draft revised Recommendations were submitted for simultaneous adoption and approval by correspondence (PSAA), following the procedure of Resolution ITU-R 1-5 (§ 10.3). In addition, the Study Group proposed the suppression of 3 Recommendations.

The conditions governing this procedure were met on 19 April 2010, with the approval of 1 new Recommendation, 7 revised Recommendations and the suppression of 3 Recommendations.

While there were no objections to the suppression of Recommendations ITU-R SF.1482, ITU-R SF.1483, ITU-R SF.1484-1 and ITU-R SF.1573, it was noted that these Recommendations fall under the joint responsibility of Study Group 4 and Study Group 5. As Study Group 4 has not yet considered their proposed suppression, the process for approval of their suppression has been suspended pending consideration by Study Group 4 in July 2010.

The approved Recommendations will be published by the ITU and Annex 1 to this Circular provides their titles, with the assigned numbers. Annex 2 provides the list of suppressed Recommendations.

Valery Timofeev
Director, Radiocommunication Bureau

Annexes: 2

Distribution:

- Administrations of Member States and Radiocommunication Sector Members
- ITU-R Associates participating in the work of Radiocommunication Study Group 5
- Chairmen and Vice-Chairmen of Radiocommunication Study Groups and the Special Committee on Regulatory/Procedural Matters
- Chairman and Vice-Chairmen of the Conference Preparatory Meeting
- Members of the Radio Regulations Board
- Secretary-General of the ITU, Director of the Telecommunication Standardization Bureau, Director of the Telecommunication Development Bureau

ANNEX 1

Titles of the approved Recommendations

Recommendation ITU-R M.1874

Doc. 5/171(Rev.1)

Technical and operational characteristics of oceanographic radars operating in sub-bands within the frequency range 3-50 MHz

Recommendation ITU-R M.1450-4

Doc. 5/173(Rev.1)

Characteristics of broadband radio local area networks

Recommendation ITU-R M.1802-1

Doc. 5/176(Rev.1)

Characteristics and protection criteria for radars operating in the radiolocation service in the frequency band 30-300 MHz

Recommendation ITU-R M.1801-1

Doc. 5/179(Rev.1)

Radio interface standards for broadband wireless access systems, including mobile and nomadic applications, in the mobile service operating below 6 GHz

Recommendation ITU-R F.1570-2

Doc. 5/181(Rev.1)

Impact of uplink transmission in the fixed service using high altitude platform stations on the Earth exploration-satellite service (passive) in the 31.3-31.8 GHz band

Recommendation ITU-R F.387-11

Doc. 5/182(Rev.1)

**Radio-frequency channel arrangements for fixed wireless
systems operating in the 11 GHz band**

Recommendation ITU-R M.1371-4

Doc. 5/191(Rev.1)

**Technical characteristics for an automatic identification system using time
division multiple access in the VHF maritime mobile band**

Recommendation ITU-R M.1798-1

Doc. 5/192(Rev.1)

**Characteristics of HF radio equipment for the exchange of
digital data and electronic mail in the maritime mobile service**

ANNEX 2

List of suppressed Recommendations

Recommendation ITU-R	Title
F.349-5	Frequency stability required for systems operating in the HF fixed service to make the use of automatic frequency control superfluous
F.436-5	Arrangement of voice-frequency, frequency-shift telegraph channels over HF radio circuit
M.1040	Public mobile telecommunication service with aircraft using the bands 1 670-1 675 MHz and 1 800-1 805 MHz
