- Suppression of 8 Recommendations

Terrestrial services

By Administrative Circular CAR/309 dated 19 January 2011, 1 draft new Recommendation and 4 draft revised Recommendations were submitted for simultaneous adoption and approval by correspondence (PSAA), following the procedure of Resolution ITU-R 1-5 (§ 10.3). In addition, the Study Group proposed the suppression of 8 Recommendations.

The conditions governing this procedure were met on 19 April 2011, with the approval of 1 new Recommendation, 4 revised Recommendations and the suppression of 8 Recommendations.

While there were no objections to the suppression of Recommendation ITU-R SF.1481, it was noted that this Recommendation falls under the joint responsibility of Study Group 4 and Study Group 5. As Study Group 4 has not yet considered its proposed suppression, the process for approval of this suppression has been suspended pending consideration by Study Group 4 in September 2011.

The approved Recommendations will be published by the ITU and Annex 1 to this Circular provides their titles, with the assigned numbers. Annex 2 provides the list of suppressed Recommendations.
