Circular Letter  
**CR/300**

22 April 2009

## To Administrations of Member States of ITU

**Subject:** Resolution **80 (Rev.WRC-07)**

### To the Director-General

Dear Sir/Madam,

At its 50th meeting (16-20 March 2009), the Radio Regulations Board reviewed its mandate under Resolution **80 (Rev.WRC-07)**, to consider and review possible draft recommendations and draft provisions linking the formal notification, coordination and registration procedures of satellite networks with the principles contained in Article 44 of the Constitution and No. **0.3** of the Preamble to the Radio Regulations. The Board came to the conclusion that the formal notification, coordination and registration procedures referred to in *resolves 2* of Resolution **80** involve Articles 9 and 11 and Appendices **4, 5, 30, 30A, and 30B** of the Radio Regulations and Resolution **49 (Rev.WRC-07)** and that all of the principles contained in Article 44 of the Constitution and No. **0.3** of the Preamble to the Radio Regulations were to be considered.

The Board also recognized that the work would be enhanced by inputs from administrations and from the studies to be performed under *resolves 1* of Resolution **80 (Rev.WRC-07)**. In this connection and given the complexity of the task, your administration, along with other administrations, may wish to contribute as early as possible to these studies and to submit relevant contributions to the Board in this respect.

The Board will then continue its work on Resolution **80 (Rev.WRC-07)** based on any contributions received from administrations and Board Members.

Yours faithfully,

Valery Timofeev  
Director, Radiocommunication Bureau
