Circular Letter
CR/260

11 September 2006

To Administrations of Member States of ITU

Subject: Publication of the updated reference situation of the Appendix **30B** Plan for the Fixed-Satellite Service.
Resolves 6 of Resolution **146 (WRC-03)**

To the Director-General

Dear Sir/Madam,

1. The World Radiocommunication Conference 2003 (Geneva, WRC-03) adopted revised provisions for Appendix **30B** of the Radio Regulations.
2. The Radiocommunication Bureau has completed its examination of submissions received up to 4 July 2003.
3. In accordance with *resolves 4* of Resolution **146 (WRC-03)**, the Radiocommunication Bureau is now using the following parameters:
 - a single-entry C/I ratio value of 27 dB;
 - an aggregate C/I ratio value of 23 dB.
4. Pursuant to *resolves 6* of the above-mentioned Resolution, the Bureau has computed the complete reference situation of the Appendix **30B** Plan and the associated List of assignments (i.e. for all test-points) using the new C/I ratios. The reference situation will be used for subsequent application of the provisions of Articles 6 and 7 of Appendix **30B** (WRC-03). The Bureau has posted this information in tabular format on the ITU website at the following address:

<http://www.itu.int/ITU-R/space/plans/ap30b>

The same information will also be available in BR IFIC No. 2578 of 19 September 2006.

5. Please also note that the reference situation, as it evolves as a result of addition and/or deletion of satellite networks, will be posted on the above-mentioned ITU website and published periodically in the BR IFIC.

Yours faithfully,

Valery Timofeev
Director, Radiocommunication Bureau
