Subject: Application of S11.44.1 of Radio Regulation (WRC-2000)

Ref.: BR Circular telegram 11G(SSC)/0.2658/01 of 14 November 2001

Dear Sir,

1. The Radiocommunication Bureau hereby draws the attention of all administrations to the provisions of No. S11.44.1 that will enter into force as from 1 January 2002 and the Rule of Procedure relating to Nos. S11.44 and S11.44.1 adopted by the Radio Regulations Board at its 24th meeting (Geneva, 10-18 September 2001).

2. These provisions stipulate that the assignments included in a request for coordination shall no longer be taken into account by the Bureau and administrations unless the first notice for recording the assignments in question under No. S11.15 has been received by the Bureau by the end of the seven-year (or nine-year) regulatory period, from the date of receipt (or publication) of the relevant advance publication information, as appropriate.

3. In this context, the Radiocommunication Bureau has prepared two lists of networks for which the notification information under No. S11.15 must be received by the Bureau before their regulatory periods expire. The list in Annex 1 contains networks for which a request for coordination has been received by the Bureau and for which the nine-year regulatory period will expire before 1 June 2002, but for which no notification information has yet been received by the Bureau. The list in Annex 2 contains networks for which a request for coordination has been received by the Bureau, and for which the nine-year regulatory period will expire before 1 June 2002, but for which notification information has been received but was returned to administrations as a result of an unfavourable Finding.

4. The Bureau requests your Administration to kindly verify the attached lists and submit the notification information under No. S11.15 either with all the required agreements obtained (No. S11.32), or with certain agreements still missing, but with a request to apply the provisions of Nos. S11.32A, S11.35 or S11.41, as appropriate.

5. The attention of your Administration is drawn to the fact that the lists in the Annexes do not include networks for which notification information has been partly received and recorded in the MIFR. Your Administration is kindly requested to verify if any of your networks fall in the above category and to submit the notification information as mentioned in paragraph 4 above for the corresponding assignments still at the coordination stage and for which the nine-year regulatory period will expire before 1 June 2002.

6. Please note that this communication is to be considered as the Bureau's advance notice specified in No. S11.44.1.

7. The Bureau trusts that your Administration will provide the required information as indicated above. In the event that such notification information is not received within the specified period, the Bureau will initiate further action as foreseen by No. S11.44.1 and the related Rule of Procedure.

Yours faithfully,

Avram Sion

Acting Head, Space Systems Coordination Division
