CTITU/A21
9A5D(SPR)/O.003643/14

30 September 2014

To Administrations of Member States of the ITU
(BR special list Gensel76 SSD)

Subject: Application of No. 9.5D of the Radio Regulations to APIs data received between 1 January and 31 March 2013

The Radiocommunication Bureau hereby draws the attention of all administrations to the provisions of No. 9.5D (WRC-03) according to which the coordination data under No. 9.30 relating to a satellite network is to be submitted to the Bureau within a period of twenty-four months after the date of receipt of the API.

Having reviewed its records, the Bureau has identified the networks listed in Annexes 1 and 2 for which the API data were received by the Bureau between 1 January and 31 March 2013. For these networks the expiry of the 2-year period mentioned above falls between 1 January and 31 March 2015, as indicated in the last column of Annexes 1 and 2.

For the listed networks, responsible administrations are reminded that:

- a) Coordination requests are receivable by the Bureau up to the date indicated in the last column of the Annex 1, failing which the API Special Section will be cancelled
- b) Annex 2 contains the list of networks for which coordination requests have already been received. However, if these coordination requests do not contain all the relevant frequency bands mentioned in the API Special Section, you may wish to submit an additional coordination request, covering the missing frequency bands. In this case such an additional coordination request is receivable by the Bureau up to the date indicated in the last column of the Annex 2. Not submitting such a request will result in the suppression of the affected bands from the API database.

All administrations are requested to verify if, in the period between 1 January and 31 March 2013, they have submitted an API for networks not listed in Annexes 1 and 2 and, if so, to act in accordance with paragraph a) or b), as appropriate.

This communication is to be considered as the Bureau's advance notice specified in No. 9.5D of the Radio Regulations.

The Bureau remains at your disposal for any further information and clarifications that may be needed in respect to this matter. The contact person concerning this matter is Mr. A. MATAS, telephone: +41 22 730 6105, fax: +41 22 730 5785, e-mail: brmail@itu.int.

Yvon Henri
Chief, Space Services Department
