Blockchain Interoperability

## Web 3.0 & Digital Economy Ownership

- Open Networks
- Tokenization of Value
- Digital Assets and Digital Money
- Central Bank Digital Currency

WORLD BANK GROUP  
Information and Technology Solutions

# Metaverse for Technical Education

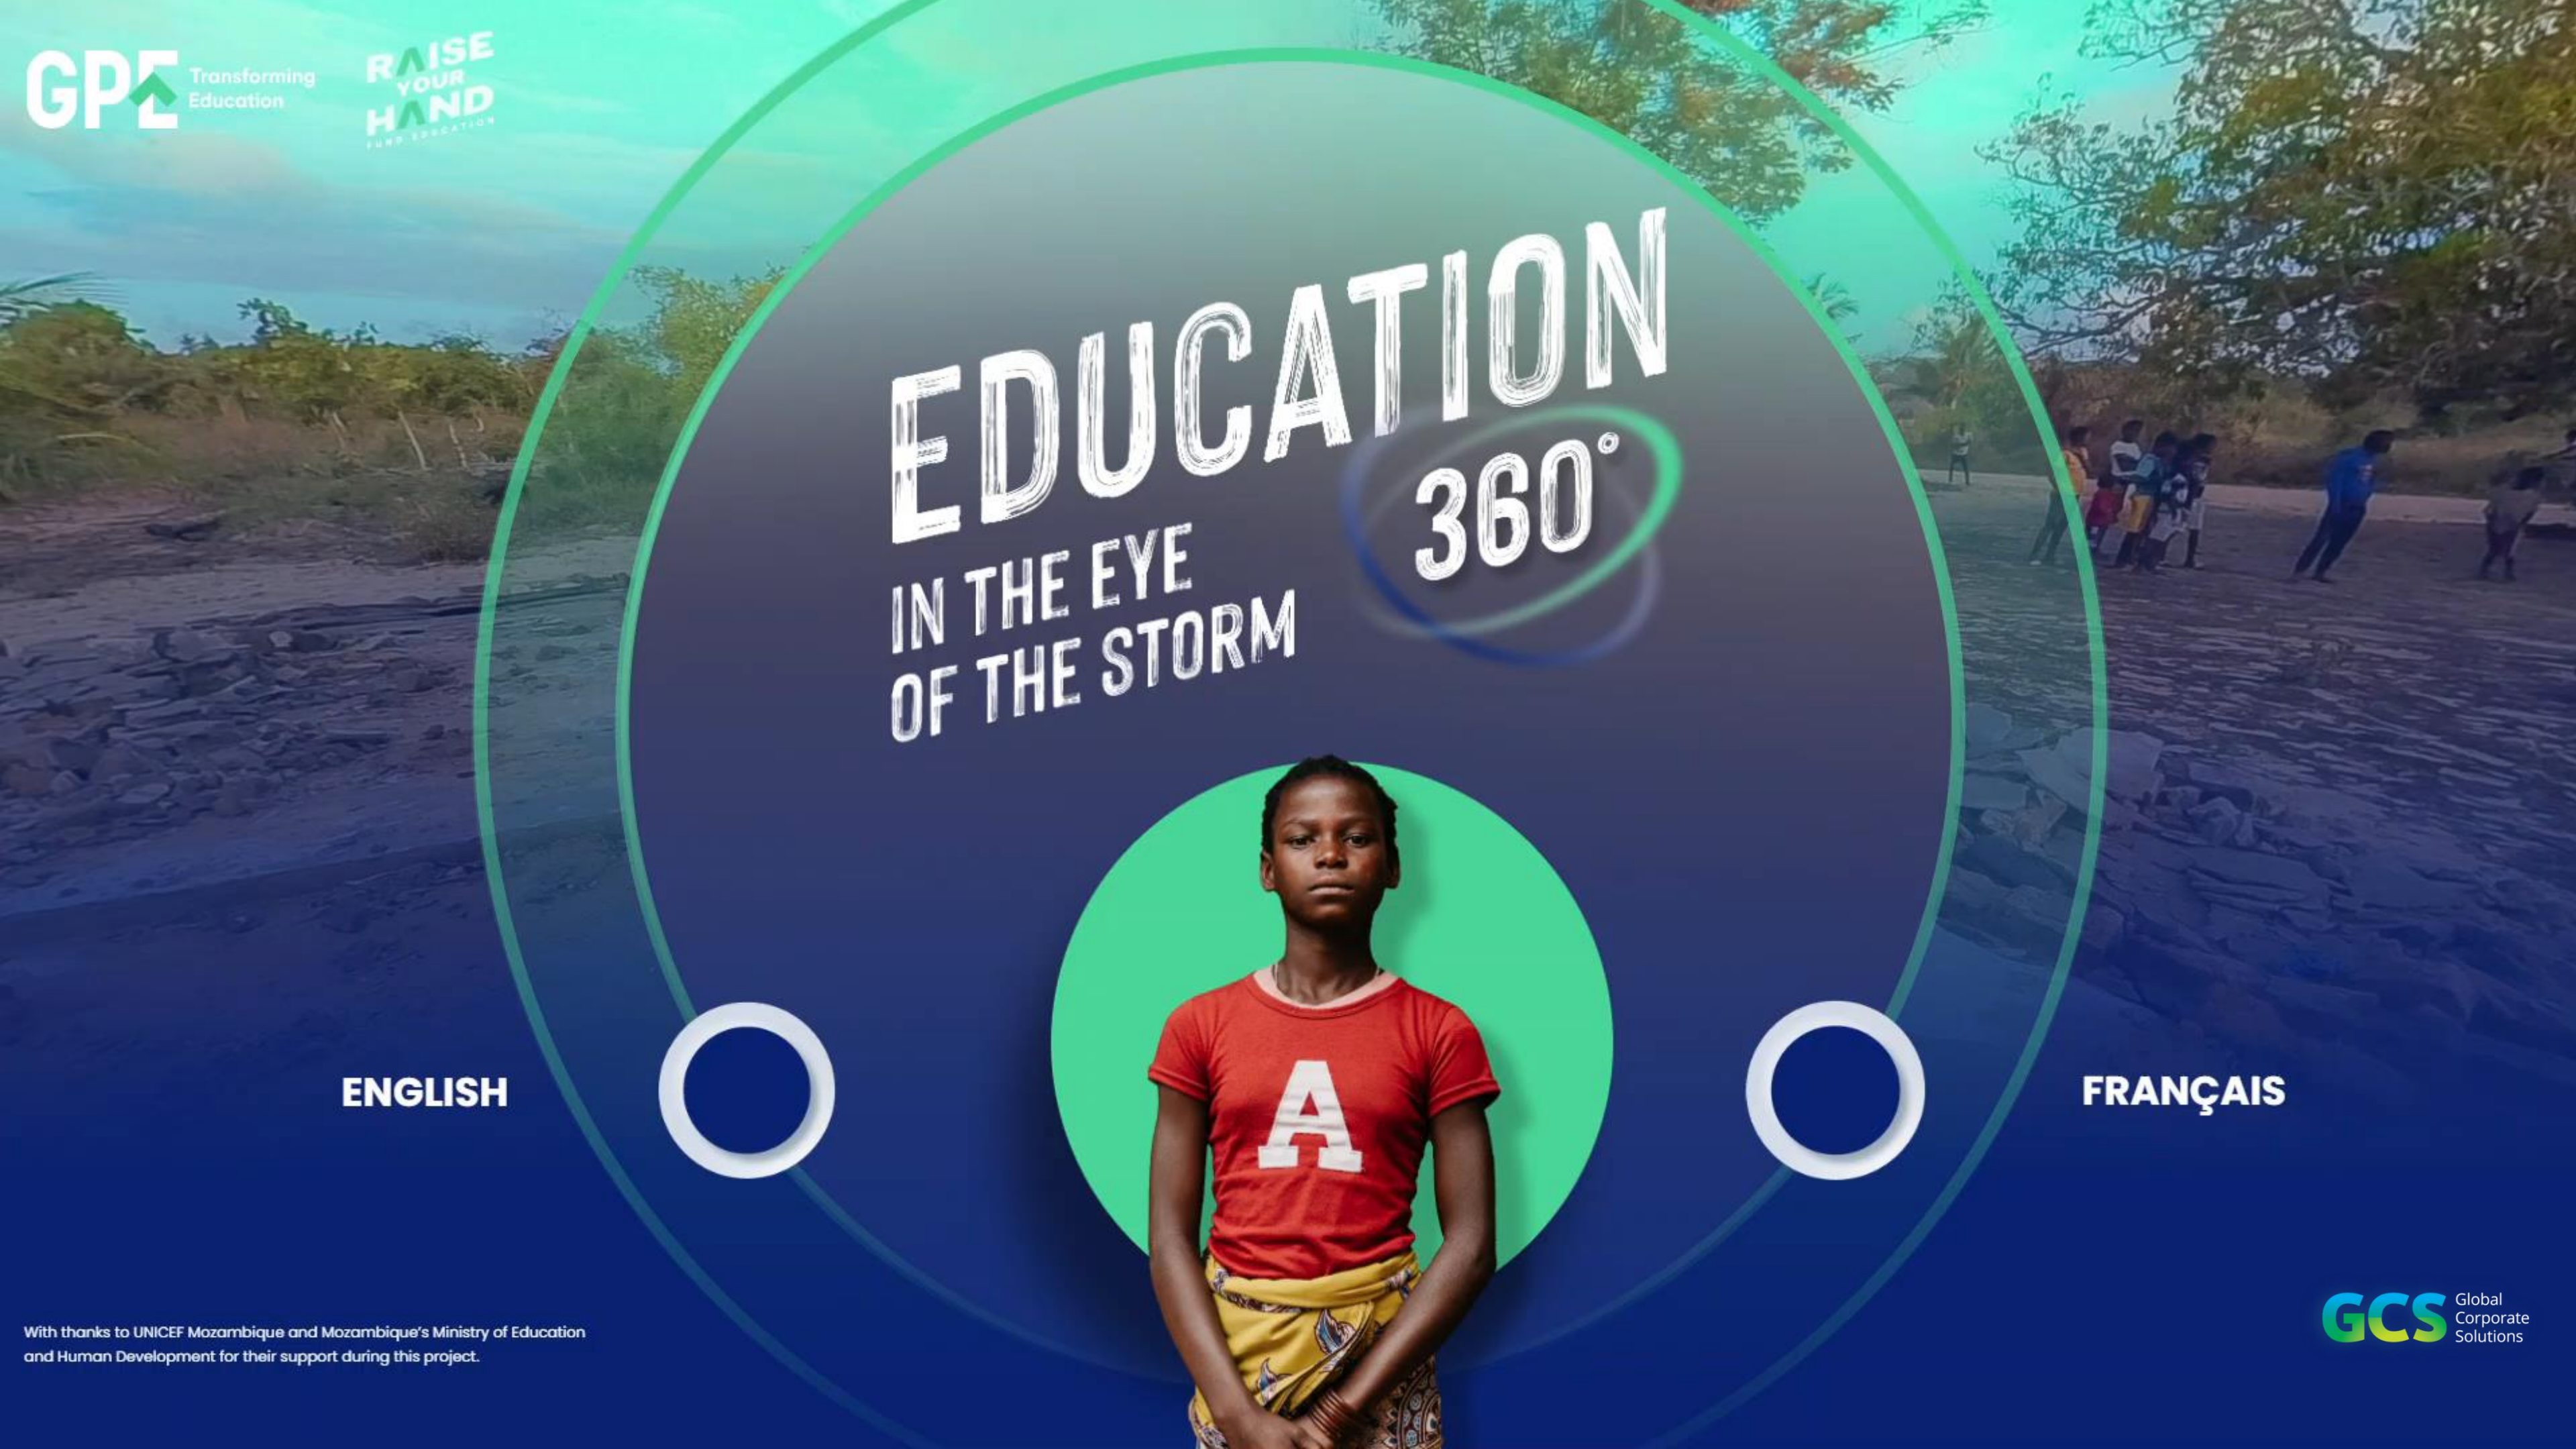

Build the capacity of OECS national colleges to capitalize on the Metaverse as a building block to solve the challenges of remote instruction and regional collaboration. The Metaverse would allow the education community to host events, hold classes, and access student services (such as student counseling) in an immersive and engaging 3D world.
