

# UNHCR Innovation Service

## Connectivity for Refugees

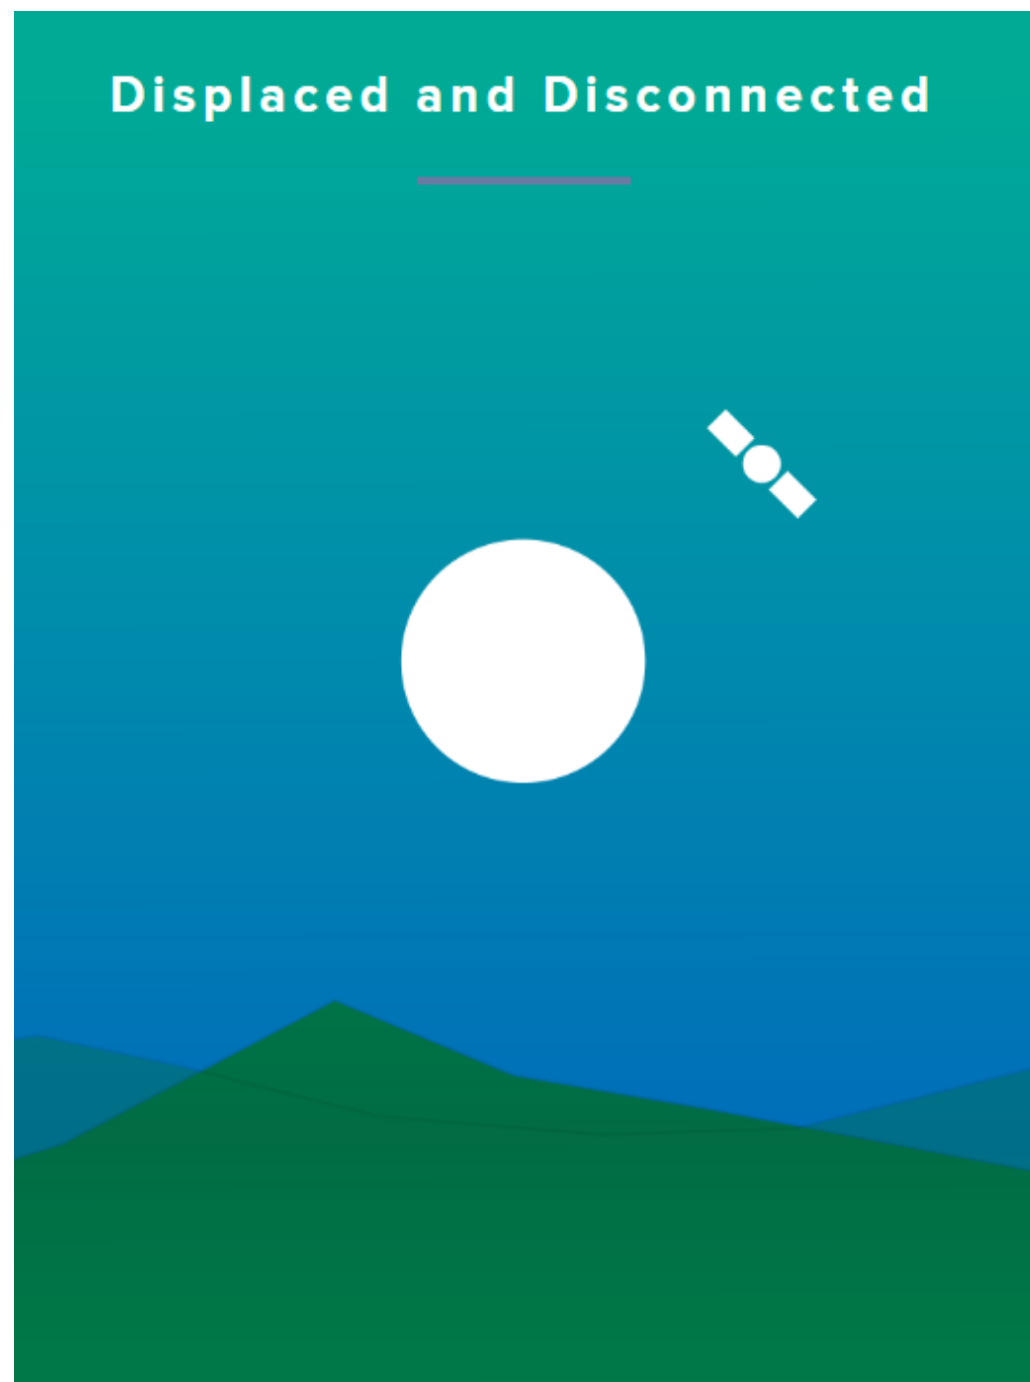

***“All refugees and hosting populations, regardless of age, gender or demographic group, have the right to access mobile and internet connectivity to build brighter futures for themselves, their families and the world.”***

# Displaced and Disconnected

**Education, Livelihood Opportunities and  
Economic Inclusion**

# Predicting dynamics of forced displacement

# Creating an Enabling Environment

- Enhancing engagement between regulators, MNOs other connectivity and infrastructure providers to help develop integrated strategies in line with national planning
- Champion sustainable approaches and solutions.
- Join us in partnership as it will require diverse skill sets and capacities as well as engagement and involvement of local populations.

# Supporting high-tech, low-tech and no-tech Innovation

Planning a Mobile Phone Distribution?  
10 things to consider, okay... there's a few more.

By Katie Drew, Innovation Officer (Communicating with Communities)

Chatbots in humanitarian settings:  
revolutionary, a fad or something in-between?

Innovation is about diversity and inclusion. Stop with the gimmicks, catch up.

By Chris Earney, Head, e.I., UNHCR Innovation Service
