Up 24% in last two years

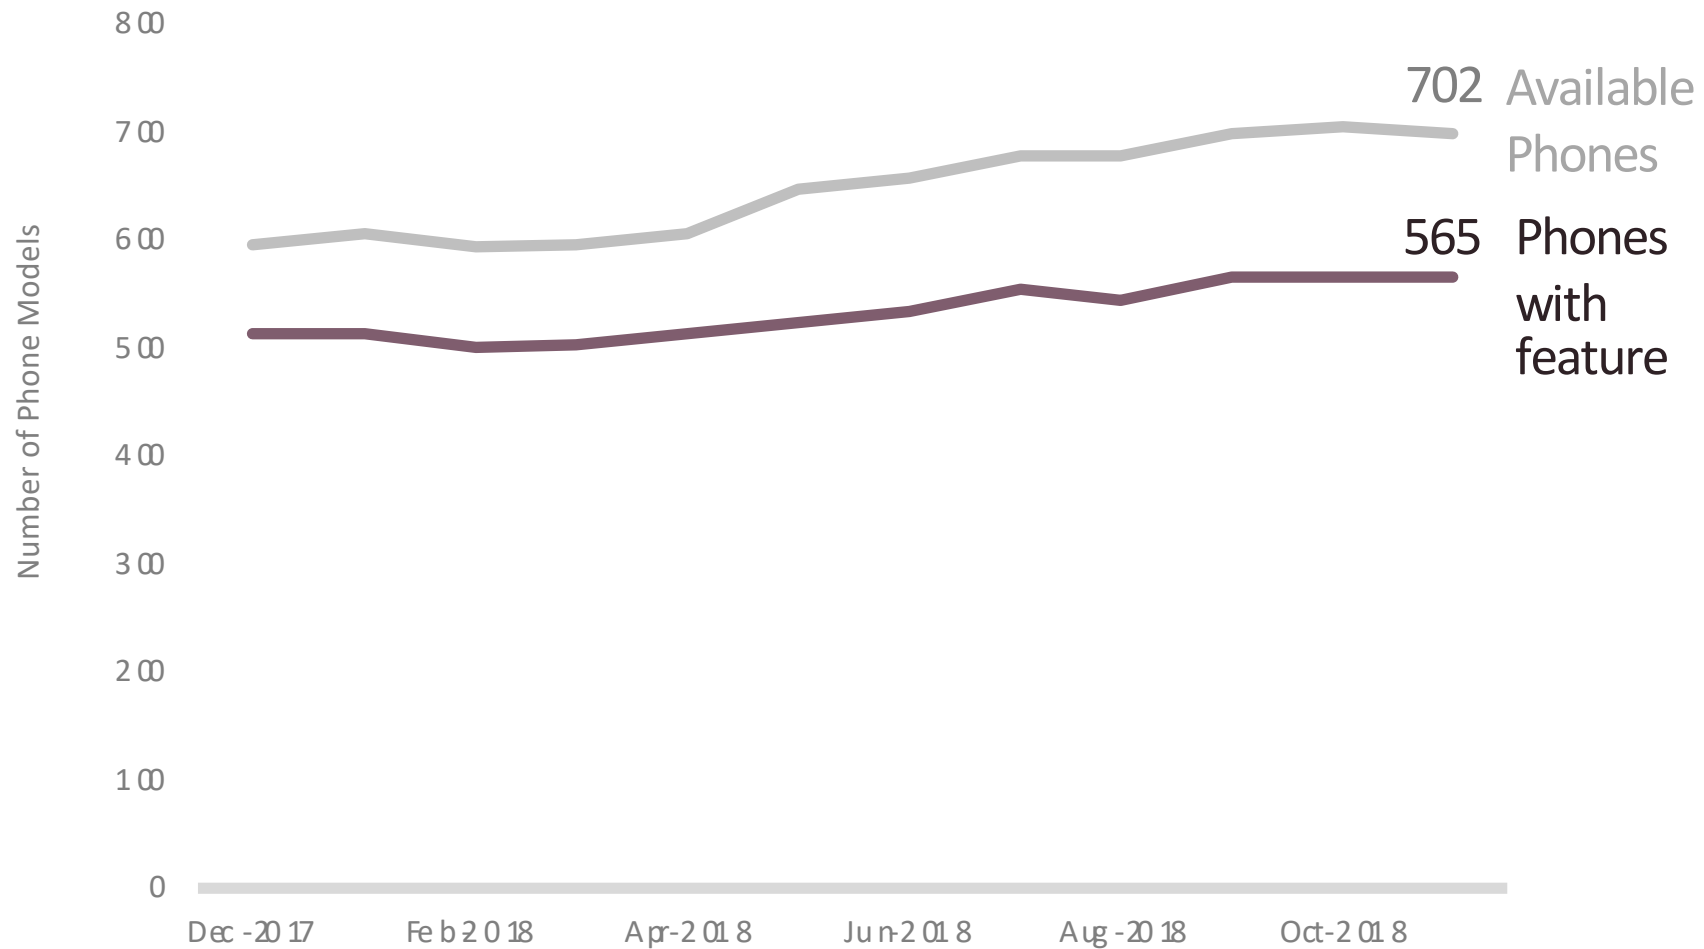

**Mobile & Wireless
Forum**

110 Phones support Emergency Services & location

**Mobile & Wireless
Forum**

565 Phones Support Voice Recognition for Dialing or Accessing Features

What GARI offers

- A set of accessibility features more extensive than any country's existing requirements.
- A tool that helps fulfil obligations under the UN Convention on Rights for Persons with Disabilities (UNCRPD).
- An easy to use gateway for consumers on the accessibility features of devices available in-country.
- A tool to encourage greater awareness of accessibility features within a range of products.

Thank you
