Caribbean Outreach Liaison

American Registry for Internet Numbers

www.arin.net

ARIN: A Regional Internet Registry

The **ARIN Region** includes Canada, the United States and many North Atlantic and Caribbean islands.

Bermuda

Atlantic Ocean

Bahamas

Turks & Caicos Islands

Cayman Islands

British Virgin Islands

Anguilla

St. Martin

Puerto Rico

St. Barthelemy

U.S. Virgin Islands

Antigua & Barbuda

Jamaica

Saint Kitts & Nevis

Guadeloupe

Montserrat

Dominica

Saint Lucia

Martinique

Saint Vincent & the Grenadines

Barbados

Grenada

Canada

United States

Enlarged Area

What do the RIRs do?

Manage the distribution of IP addresses and Autonomous System numbers
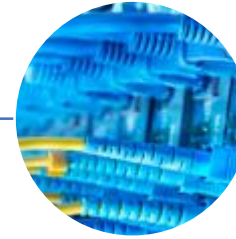

Provide reverse DNS and a public Whois directory service with registration data

Support Internet infrastructure through technical coordination

Spotlight on Network Resilience

Focus On Caribbean Network Resilience

Improve **Technical Capacity** in Network Engineering

Strengthen Network and **Infrastructure Resilience**

Strengthen **Policy and Regulation**

Improve Disaster **Mitigation and Response** Planning Capability

In Our Caribbean Outreach We Found

Inadequate Coordination

No Overarching Entity with Execution Power

More Robust Telecoms and Electricity Infrastructure Needed

Greater Regulatory & Disaster Mgm't Capability Needed

What ARIN Is Doing In Response

Technical Community Group

- Developing Network Administration Competencies in collaboration with CaribNOG

Public Policy Group

- Promoting policy development to accelerate Network Autonomy and Resiliency, IXPs and IPv6 Adoption and Cybersecurity in collaboration with the CTU and CCCR

Justice Sector Group

- Supporting coordination and collaboration of cybersecurity and public safety and judicial agencies in collaboration with the CCJ and APEX

Collective Effort Underway

THANK YOU
