- The Agenda and Program of the WSIS Forum are built through an **Open Consultation Process (OCP)**; a multistakeholder preparatory process where entities are actively engaged to ensure broad ownership and further improvements of the Forum. The Open Consultation Process will include a collection of **inputs from regional and national** WSIS related events. The physical meetings of the Open Consultation Process will benefit from **remote participation**.
- **The Open Consultation Process for the WSIS Forum 2019 is structured in five phases as follows:**

## Phase I

*Launch of the OCP*

2 July 2018

## Phase II

*1<sup>st</sup> Physical Meeting*

12 November 2018

## Phase III

*2<sup>nd</sup> Physical Meeting*

31 January 2019

## Phase IV

*Deadline for Submissions*

10 February 2019

## Phase V

*Final Brief*

8 March 2019

# Forum OUTCOMES

# Suggestions on Strengthening the Outcomes

- Each Annual Forum should continue producing a **consolidated document containing the outcomes**, as well as the meetings' agendas, workshops, ministerial roundtables, dialogue tables, etc. to provide a summary of the findings.
- **Result-focused approach** for each session and workshop should be applied: Each session should generate a concrete outcome for future reference.
- **WSIS Action Lines** should present a concise **annual progress report** consisting of emerging trends, statistics and supplemented by case studies if necessary, to be presented during the WSIS Action Line Facilitation Meetings and WSIS Action Line Facilitators Meeting, and forwarded to the UN follow ups of WSIS and SDG processes.
- **Annual progress review of WSIS process and its contribution to 2030 Agenda for Sustainable Development** should be prepared as an outcome of the WSIS Forum.
- Annual **report and sharing of examples of global best practices through the WSIS Stocktaking**
- Annual review by **Partnership on Measuring ICT for Development** might enrich monitoring of implementation of the WSIS outcomes
- Pre-WSIS Forum **national and regional meetings** that then feed into the annual WSIS Forum in Geneva.
- Further collaboration and implementation of the **WSIS Action lines and SDGs Matrix**

# WSIS Forum: Strengthening linkages with the 2030 Agenda for Sustainable Development

- WSIS Forum should **continue to build useful links with the 2030 Agenda for Sustainable Development** that complement from ICTs perspective the work done on SDGs in other fora while remaining in line with the original WSIS principles and goals.
- As countries begin the implementation of their action plans for SDGs achievement, the WSIS Forum can provide opportunities for ICT stakeholders to present successful case studies of already implemented solutions, and for policymakers and civil society groups to **bring attention to country-specific needs**.
- Create **online platform to record the performance** of Countries in achieving the SDGs and the role of the WSIS Action Lines.
- To make a table of **Action Plan versus the Action Performed**, which could be published every year.
- To showcase initiatives at **global level and to link them with local offices** of specific UN agencies.
- To create specific **knowledge sharing events**, directly linked to specific SDGs, clearly integrated into the WSIS process.
- Annual submission of **WSIS Country Reports** by Communications Regulators to track implementation of WSIS Action Lines and SDGs.
- To identify **top 3 priority SDGs** for each year to be driven by each country and monitor implementation through Champions and annual country reports.
- WSIS should develop an Open Source Application Development Platform that gives developers in different countries access to reusable source code for development of solutions in line with WSIS mandate and 2030 Agenda.

### Accessibility Day

**WSIS Accessibility Day** will be held and at the WSIS Forum 2019 with objective to further discuss how ICTs are enabling accessibility, focusing around 5 key issues:

- Security**
- Communication**
- Mobility**
- Education**
- Emergency**

### Innovation Track

The vital role of ICTs as a catalyst for development is acknowledged in the 2030 Agenda for Sustainable Development, stating “the spread of ICTs and global interconnectedness has great potential to accelerate human progress, to bridge the digital divide and develop knowledge societies.”

### Youth Track

Young people can play an important role in leveraging ICTs to help achieve the United Nations SDGs. Continuing a successful track in 2018, the WSIS Forum 2019 will feature a **special track on youth engagement**, which include hundreds of students and young professional participants.

### ICTs and Sports

The impact that technology has had on sports is vast. No matter the use, **technology is taking sports to new heights**. From the Video Assistant Referee (VAR), Electronic Performance and Tracking Systems (EPTS), Virtual Reality (VR), to the realization of 5G. Take part in **ICTs and Sports track to discover and learn about new developments in this field**.

# Ministerial Round Table

- **Objective:** This Ministerial Round Table will provide a platform for an interactive debate, in a high-level setup, on strategies and policies towards the implementation of the WSIS Action Lines, with the aim of strengthening the impact of ICTs on sustainable development and achieving SDGs.
- **Chairmanship:** ITU Secretary General and Chairman of WSIS Forum
- **Participation:** Restricted to the ministers only (no replacements / no observers)
- **When:** Wednesday, 10 April 2019, 14:00 – 16:30
- **Where:** CCV Geneva Room
- **Outcome:** Brief summary on issues raised.
