Digital Media Observatory (EDMO)

Darius Staniulis

Ambassador, Permanent Representative of
Lithuania in Geneva - *moderator*

Disinformation has been broadly recognized among major modern threats. With the advances in digital technology, it spreads rapidly and threatens political engagement, deepens distrust, risks increased polarization in societies and limits freedom of individuals to seek, receive and impart information. The event will aim to identify points of convergence, best practices and possible ways forward for an increased synergy between relevant stakeholders in countering disinformation online.
