**FUNDACIÓN CIBERVOLUNTARIOS**  
**EUROPEAN SCOPE**

 @cibervoluntario  Cibervoluntarios  @cibervoluntarios  Cibervoluntarios

We are a Spanish NGO with international Scope, pioneers since 2001 in social use of technologies to generate digital empowerment through citizen participation and technological volunteering. We promote the use and knowledge of technology as a means to alleviate social rights, generate social innovation and favour citizens rights by enhancing their opportunities. **We currently have a network of 2.000 cybervolunteers and collaborate directly with more than 1.500 organizations. Thanks to our activities, we can reach about 60.000 people annually through free digital skills training activities and events.**

### OUR MISSION

**Ensuring that all people have the opportunity to access, learn about and use technologies as a means to improve any aspect of their lives or their environment.**

### EXPERTISE

**We are experts in the end user testing, performing research, user requirements, Cocreation phase with citizens, pilots and social living lab. Always involving ICTs, disruptive technologies and using new digital solutions with social impact to achieve the Agenda 2030 .**

We create custom projects collaboratively, almost always replicable and scalable, from local to global, in a disruptive, open, transparent, ethical, sustainable and inclusive way. We are pioneers in technological volunteering, an international benchmark that combines technology and the social good. **Cibervoluntarios has been an internationally recognized by the Financial Times as one of the Europe's 100 Digital Champions.**

## Digital Transformation to improve the world

#### We promote the adoption

and use of ICTs by citizens, NGOs and Institutions to achieve the 2030 Agenda

#### We favour the proper use

of content, services, tools and access to the Information and Knowledge Society

#### We promote cybervolunteering

creation of training and mobilization of a technological volunteer: the cybervolunteers

#### We create social awareness

generate positive social and cultural attitudes towards the importance of ICT to transform society

#### We remove any barrier

that prevents the knowledge and use of ICT, especially physical, social and cultural

#### We promote the responsible participation

of young people and minors who use digital tools

## WE OPERATE FROM LOCAL TO GLOBAL

At Fundación Cibervoluntarios we always like to work in collaboration with **other entities and organizations**, building from local to global. About 25% of our activities are carried out in rural areas. We want people to get the most out of the network, especially those in situation of digital vulnerability for different reasons: gender, age, professional and social environment or lack of motivation or resources.

Minors, teachers  
and families

People with  
functional diversity

People living in  
rural areas

Women and  
gender equality

Migrants

Elderly people

Small NGOs

Local entrepreneurs

## Services we offer

We offer different and innovative bespoke projects. We design programmes that meet the needs and interests of our collaborators in different fields. We like to take care of every detail. ***If you have an initiative in mind, contact us.***

Consultancy

Bespoke  
projects

Digital transformation  
of entities

Training  
services

Civic  
Technologies

Technological CSR

## Milestones & acknowledgments

Since 2001, Fundación Cibervoluntarios has received several awards to its work, to be highlighted:

**Financial Times:**  
“Europe’s 100 Digital Champions”

Selected as one of the 100 pioneer  
entities in digital transformation  
in Europe: “Europe’s Road to Growth”

**Forbes Magazine:** “The Other 100  
Greatest Fortunes of Spain”

Selected as one of the 100 entities  
that improve the lives of many people  
in Spain.

**Internet Awards:** “Best Digital  
Transformation in Social Action”

Our *IniciaTIC* program was awarded  
in the Digital Transformation  
in Social Action category.

### Our national projects

We develop our own projects or in collaboration with other organisations. The common link for all is to generate transformation and social impact, as well as to build or create a digital citizenship with more opportunities, participatory and inclusive. *More info of our projects in our website.*

Collective intelligence ecosystem that acts as a social network to develop solutions to achieve the SDGs. Supported by the United Nations.

[www.empodera.org](http://www.empodera.org)

International reference event that annually brings together experts and initiatives that use technology to change the world in a creative, sustainable and innovative way.

[www.empoderaLIVE.org](http://www.empoderaLIVE.org)

Hackathon of ideas to find solutions and actions to the real challenges and needs posed by civil society, always linked to at least one of the 17 SDGs.

[www.ideaton.org](http://www.ideaton.org)

Program for the acquisition and certification of skills in entrepreneurship and innovation to achieve the Sustainable Development Goals.

[www.competencias2030.org](http://www.competencias2030.org)

Training program promoted by TikTok and Cibervoluntarios with resources for teenagers, families and teachers as a platform for education and creativity.

[www.campustiktok.com](http://www.campustiktok.com)
