

Carol Roach Bio 2023-12-01

Over the last 30+ years, Carol has been a key player as an ICT strategist and an e-Government expert for the Government of The Commonwealth of The Bahamas. She has improved the efficiency and effectiveness of services through strategy development and implementation, change management, process redesign, and the procurement and deployment of solutions. Carol has actively extended her expertise by working with regional and international organizations such as Red GEALC (Network of e-Government Experts in Latin America and the Caribbean), Organization of American States (OAS), CARICOM (Caribbean Community and Common Market), Caribbean Telecommunications Union (CTU), and various United Nations organizations. She is the current 2024 IGF MAG Chair. She is an advocate for the Small Island Developing States, ensuring at every opportunity that their voices are not left out. She is also a proponent for People, Prosperity, and Planet through responsible and sustainable use of internet and digital technologies.
