

WHEN: Tuesday 8 July 11:00-11:45 (Session 187)

WHAT: Emerging technologies special track : Back to the Future: Putting the “I” (individual) back into A.I.

WHERE: Open Space | Palexpo – WSIS+20

WITH: Dr Sarah Jane Fox - Institute for Digital Culture

WHO: “YOU”

WHY ATTEND? Have your voice heard in this session.....which will be by way of an open microphone..... Where ‘you’ the audience will take centre stage in this session.....

This session sets out to engage you and to question the impact of technology – including AI, and the potential change to OUR evolutionary pathway, which is inherently influenced by *our* collective and ‘individual’ past experiences.

Are we on the right road?

What is the impact of technology to the wider sustainability goals: does technology always aid?

What lessons should we be learning?

And how should they lead and impact future goals?
