

Who is doing What in Cybersecurity?

the Tunisian experience

Belhassen ZOUARI,

CEO, National Agency for Computer Security, Head of Cert-Tcc,

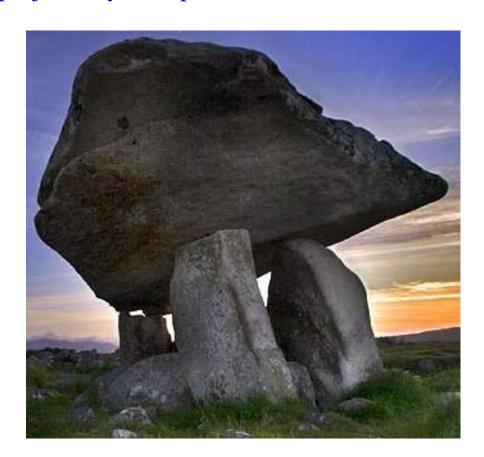

E-mail: b.zouari@ansi.tn

3 Pillars of Cybersecurity

The keys to success in a **Cybersecurity** project rely on 3 pillars :

- **Technology**ICT/Security tools, etc.
- MethodologyPolicy, procedures, regulation, etc.
- Social behaviourCulture of Cybersecurity

Technology Pillar

Computer & network tools

Antivirus

Firewall

IDS

IPS

Physical security tools

Physical access control

Building Security

Actors : Security professionals (Private sector)

Users, (Private/Public companies, individuals)

Data tools

Storage Media

Cryptography

Availability & applications

Redundant Server

PKI

e-services

Methodology Pillar

Managerial level

Security Policy

Management procedures

Capacity building

Auditing

Actors

Operational

Access Control rules

Implementation plans

Monitoring, Watching & Incident handling

Legislation level

Laws & regulation texts

Law enforcement

: Government

Security professionals (Private sector)

Users, (Private/Public companies, individuals)

Continuity of services

Business Continuity Plan
Crisis Management
Drill Exercises

Social behaviour Pillar

Cultivating the *Culture* **of Cybersecurity**

- Continuous action
- Diversifying media/channel materials

Raising Awareness

Target public:

- Managers / Decision makers
- Security Responsibles/Managers
- Children
- Parent
- Teachers
- Simple ICT users
- Communities (NGOs)

Legislative Framework

January 2003:

- The creation of a National Agency, specialized in IT Security (The Tool for the execution of the national strategy and plan)
- ☐ The Introduction of Mandatory and Periodic Security audits

(Pillar of our strategy)

- ☐ The creation of a "body of certified Auditors" in IT Security
- + some accompanying measures (launch of masters in IT security, ...)

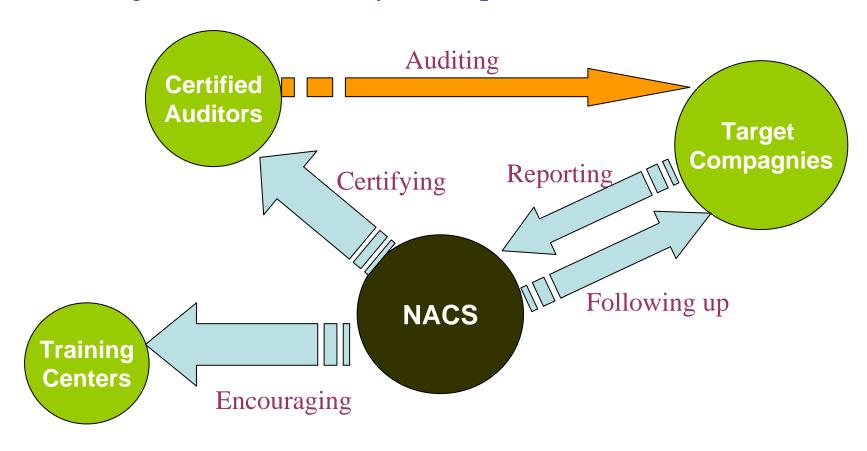

In addition to previous Laws:

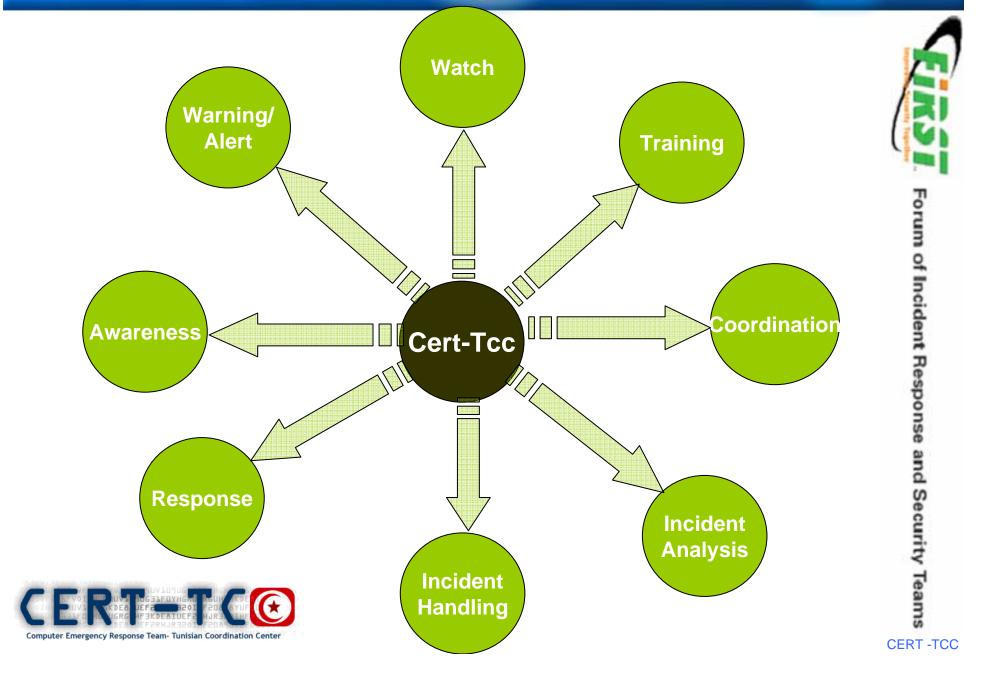

- Law on Electronic Signature and e-commerce (Law N° 2000-83)
- Law Against Cyber-Crimes (Law N° 1999-89, Art 199)
- Law on consumer protection and respect of Intellectual property (Law N°1994-36)
- Law on protection of Privacy and Personal data (Law n° 2004-63)
- ✓ September 2005 : launch of Cert-Tcc (Computer Emergency Response Team / Tunisian Coordination Center)
- ✓ May 2007: Full Member of FIRST (Forum of Incident Response Teams)

How are organized the Tunisian structures

How is organized the Security Audit process

Watch

Publication of vulnerabilities, exploits, 0days

Collaboration network

Collaboration program

Watch professionals

Trend indicators

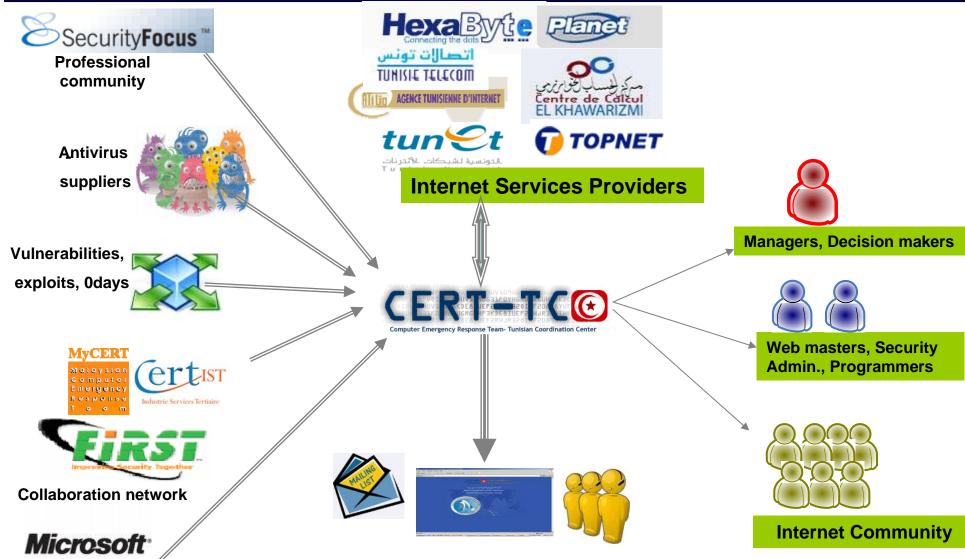

Equipments constructors

Information, Warning & Alert

Mailing List, Web Site, Call Center, Media (TV, Radio, Press)

Awareness

Oriented campaigns

- **Diversified contents**

- + Decision makers
- + Professionals
- + Teachers
- + Students
- + Users
- + Journalists
- + Lawyers

Posters

Emails

Radio Emission

Cartoon

Video Spot

Attack Simulation

Guide

Incident Handling (CSIRT)

CSIRT team

- •Trained Team
- •Technical means (Investigation)
- •Procedural means
- Platform of incident management

Collaboration network

- •Information exchange
- Attack Tracking
- Assistance

Reporting incident System 24/7

Watch

•Email: cert-tcc@ansi.tn

•Call center: 71 843200

•N° Vert: 80 100 267

CSIRT

•Email: incident@ansi.tn

•Web: on line forms

•**Tel:** : 71 846020

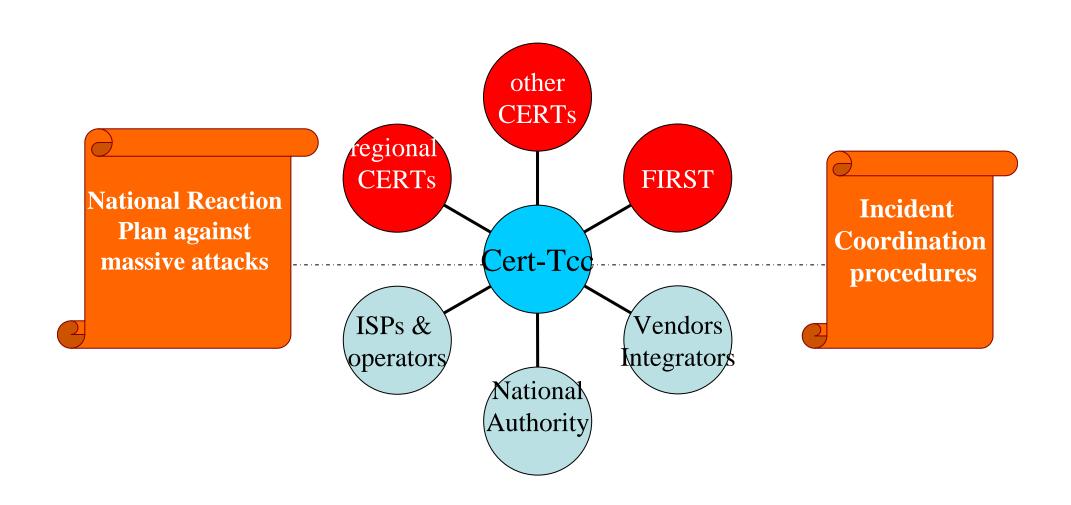

ISAC

- Massive attack Detection
- •Critical failure Detection
- •Web site attack Detection

Incident Analysis and handling

Coordination

"Know-How" In IT security

Reaching a relative technological autonomy:

- Supporting Training & Capacity building
- Encouraging the development of national Solutions and Tools,. based on **Open-source components**
- Improving R&D capabilities and making it more responsive to urgent needs.
 - Encouraging Academic Research in the Important topics of Security (cryptography, methodologies, ...)

Thank you for your attention
