ITU-T RECOMMENDATION P.50

ARTIFICIAL VOICES

APPENDIX I

Test signals

Source

Appendix I to ITU-T Recommendation P.50 was prepared by ITU-T Study Group 12 (1997-2000) and was approved under the WTSC Resolution No. 1 procedure on the 27th of February 1998.

FOREWORD

ITU (International Telecommunication Union) is the United Nations Specialized Agency in the field of telecommunications. The ITU Telecommunication Standardization Sector (ITU-T) is a permanent organ of the ITU. The ITU-T is responsible for studying technical, operating and tariff questions and issuing Recommendations on them with a view to standardizing telecommunications on a worldwide basis.

The World Telecommunication Standardization Conference (WTSC), which meets every four years, establishes the topics for study by the ITU-T Study Groups which, in their turn, produce Recommendations on these topics.

The approval of Recommendations by the Members of the ITU-T is covered by the procedure laid down in WTSC Resolution No. 1.

In some areas of information technology which fall within ITU-T's purview, the necessary standards are prepared on a collaborative basis with ISO and IEC.

NOTE

In this Recommendation, the expression "Administration" is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

INTELLECTUAL PROPERTY RIGHTS

The ITU draws attention to the possibility that the practice or implementation of this Recommendation may involve the use of a claimed Intellectual Property Right. The ITU takes no position concerning the evidence, validity or applicability of claimed Intellectual Property Rights, whether asserted by ITU members or others outside of the Recommendation development process.

As of the date of approval of this Recommendation, the ITU had not received notice of intellectual property, protected by patents, which may be required to implement this Recommendation. However, implementors are cautioned that this may not represent the latest information and are therefore strongly urged to consult the TSB patent database.

Recommendation P.50

ARTIFICIAL VOICES

APPENDIX I

Test signals

(Geneva, 1998)

I.1 Introduction

This Appendix to Recommendation P.50 is a CD-ROM containing useful test signals. The signals on this CD-ROM include the signal described in Recommendation P.50 as well as other signals that have been found useful by some Administrations. Additionally, the full speech database that was used to develop Recommendation P.50 is also on this CD-ROM.

I.2 Handbook of the speech database

File Name	Sentence
AM5F02 (7)	A rod is used to catch pink salmon. The source of the huge river is the clear spring. Kick the ball straight and follow through. Help the woman get back to her feet.
AM6F03 (9)	A siege will crack the strong defense. Grape juice and water mix well. Roads are paved with sticky tar. Fake stones shine but cost little.
AM5M04 (7)	The birch canoe slid on the smooth planks. Glue the sheet to the dark blue background. It's easy to tell the depth of a well. Four hours of steady work faced us.
AM6M05 (9)	Rice is often served in round bowls. The young kid jumped the rusty gate. Guess the results from the first scores. A salt pickle tastes fine with ham.
AM5F06 (8)	High seats are best for football fans. Tea served from the brown jug is tasty. A dash of pepper spoils beef stew. A zestful food is the hot-cross bun.
AM6F07 (10)	Heave the line over the port aide. A lathe cuts and trims any wood. It's a dense crowd in two distinct ways. His hip struck the knee of the next player.
AM5M08 (8)	The swan dive was far short of perfect. The beauty of the view stunned the young boy. Two blue fish swam in the tank. Her purse was full of useless trash.
AM6M09 (10)	A speedy man can beat this track mark. He broke a new shoelace that day. The coffee stand is too high for the couch. The urge to write short stories is rare.

SW2M11 (4)	Lamporna lyser knappast av sig själva utan av kampanjen som avslutas redan på söndag då solen har blekt mina bästa gardiner.
SW2M12 (5)	Ulla blev instängd när dörren stängdes och Eva har tappat nyckeln till cykeln fast Kerstin har klämt sin vänstra tumme.
SW3M13 (6)	Trädgårdsarbete ger hårda och valkiga händer men resultaten av proven är helt perfekta fast han paddlade kanot runt hela kusten.
SW3M14 (7)	Björkarna skiftar i lila på våren och snödropparna blommar redan i Skåne medan göken gol någonstans i väster.
SW4M15 (8)	Takpannorna blåste ner i den svåra stormen och kattungen rev sönder de nya gardinerna för flickan som har röda rosetter i flätorna.
SW4M16 (9)	Det är alldeles för varmt att sitta i buss och turisterna finns på alla badorter medan alla teatrar har stängt på sommaren.

ITU-T RECOMMENDATIONS SERIES

Series A	Organization of the work of the ITU-T
Series B	Means of expression: definitions, symbols, classification
Series C	General telecommunication statistics
Series D	General tariff principles
Series E	Overall network operation, telephone service, service operation and human factors
Series F	Non-telephone telecommunication services
Series G	Transmission systems and media, digital systems and networks
Series H	Audiovisual and multimedia systems
Series I	Integrated services digital network
Series J	Transmission of television, sound programme and other multimedia signals
Series K	Protection against interference
Series L	Construction, installation and protection of cables and other elements of outside plant
Series M	TMN and network maintenance: international transmission systems, telephone circuits, telegraphy, facsimile and leased circuits
Series N	Maintenance: international sound programme and television transmission circuits
Series O	Specifications of measuring equipment
Series P	Telephone transmission quality, telephone installations, local line networks
Series Q	Switching and signalling
Series R	Telegraph transmission
Series S	Telegraph services terminal equipment
Series T	Terminals for telematic services
Series U	Telegraph switching
Series V	Data communication over the telephone network
Series X	Data networks and open system communications
Series Y	Global information infrastructure
Series Z	Programming languages
