**Subject: ERRATUM**

Geneva, 28 September 2001

**Recommendation ITU-T P.501 (05/2000)**

TELECOMMUNICATION  
STANDARDIZATION SECTOR  
OF ITU

ITU-T Recommendation P.501 (05/2000)

## Test signals for use in telephonometry

### 1) § 5.1.1.1

Replace equation 5-3 by the following:

$$s(t) = A \left( f_0 \cdot 10^{\frac{t}{Td}} \right) \cdot e^{j \left( \frac{2\pi f_0 Td}{\ln 10} \cdot 10^{\frac{t}{Td}} + \phi_0 \right)} \quad (5-3)$$

### 2) § 5.2.4.1

In the table above Table 5/P.501, change the values of **F<sub>0</sub>** as follows:

$$F_{01} = \del{270} 250 \text{ Hz}$$

$$F_{02} = \del{290} 270 \text{ Hz}$$
