SERIES Y: Global information infrastructure, Internet protocol aspects, next-generation networks, Internet of Things and smart cities

Implementers' guide for Recommendation ITU-T Y.110 "Global Information Infrastructure principles and framework architecture"

Summary

This Implementer's Guide contains editorial updates to be incorporated within Recommendation ITU-T Y.110 (06/1998) when it is re-published.

Note

This is an informative ITU-T publication. Mandatory provisions, such as those found in ITU-T Recommendations, are outside the scope of this publication. This publication should only be referenced bibliographically in ITU-T Recommendations.

Implementers' guide for Recommendation Y.110 "Global Information Infrastructure principles and framework architecture"

References

[ITU-T Y.110]   Recommendation ITU-T Y.110 (06/1998), *Global Information Infrastructure principles and framework architecture.*

Background

This guide is a compilation of editorial updates to the 1998 edition of [ITU-T Y.110]. It is intended to be an additional authoritative source of information for implementers to be read in conjunction with the Recommendation itself.

Scope of the guide

This guide records the resolutions of defects in the category:

•   editorial errors.

Document history

Version	Summary
12/21	New Implementers' Guide Change "implementational module" to "implementational model" on page 31.

Text changes to Recommendation ITU-T Y.110

In clause 9.2 (Segments in the implementational model):

"Each of these are segments in the implementational module and are interconnected with interfaces."

shall be changed to:

"Each of these are segments in the implementational model and are interconnected with interfaces."
