

COVERING NOTE

GENERAL SECRETARIAT OF THE INTERNATIONAL TELECOMMUNICATION UNION

Geneva, 22 March 2017

ITU – TELECOMMUNICATION STANDARDIZATION SECTOR

**Subject: Erratum 1 (03/2017) to Recommendation ITU-T G.9807.1 (06/2016),
10-Gigabit-capable symmetric passive optical network (XGS-PON)**

Four bits are missing from the description for Octet 17 of the Burst_Profile message in Table C.11.4, and in the instructions relative to clause C.11 in Appendix II.

1) Clause C.11.3.3.1, Table C.11.4

Update the description for Octet 17 to read:

17	Preamble repeat count	000P PPPP when F = 0; PPPP PPPP when F = 1. The value 0 specifies that no preamble is transmitted.
----	-----------------------	--

2) Appendix II, section entitled: "For clause C.11 XGS-PON PLOAM messaging channel"

Modify the instruction for Octet 17 of Table 11-4 to read:

- Octet 17 replace "eight-bit preamble count, range 0-255" with "000P PPPP when F = 0; PPPP PPPP when F = 1."
