

COVERING NOTE

GENERAL SECRETARIAT OF THE INTERNATIONAL TELECOMMUNICATION UNION

Geneva, 5 July 2016

ITU – TELECOMMUNICATION STANDARDIZATION SECTOR

Subject: Erratum 1 (07/2016) to Recommendation ITU-T H.812.3 (2015), *Interoperability design guidelines for personal health systems: WAN interface: Capability exchange certified device class*

Two of the uniform resource locators (urls) in Table A.1 and clause I.1 point to the wrong resource. Replace the urls to read as follows:

1) Table A.1

Table A.1 – Normative guidelines for WAN devices

Name	Description	Comments
...		
CapX_WAN_Root_Profile_Element	The Health & Fitness Service root file shall contain a profile element with the id "CapabilityExchange" and reference " http://handle.itu.int/11.1002/3000/hData/CX/2015/01/H.812.3.pdf "	
...		

2) Clause I.1, Required root file inclusions for WAN device

```
<profile>
  <id> CapabilityExchange</id>
  <reference> http://handle.itu.int/11.1002/3000/hData/CX/2015/01/H.812.3.pdf
</reference>
</profile>

...
