

INTERNATIONAL TELECOMMUNICATION UNION

# CCITT

THE INTERNATIONAL  
TELEGRAPH AND TELEPHONE  
CONSULTATIVE COMMITTEE

# B.19

(11/1988)

SERIES B: MEANS OF EXPRESSION: DEFINITIONS,  
SYMBOLS, CLASSIFICATION

---

## ABBREVIATIONS AND INITIALS USED IN TELECOMMUNICATIONS

Reedition of CCITT Recommendation B.19 published in  
the Blue Book, Fascicle I.3 (1988)

---

## NOTES

1 CCITT Recommendation B.19 was published in Fascicle I.3 of the *Blue Book*. This file is an extract from the *Blue Book*. While the presentation and layout of the text might be slightly different from the *Blue Book* version, the contents of the file are identical to the *Blue Book* version and copyright conditions remain unchanged (see below).

2 In this Recommendation, the expression “Administration” is used for conciseness to indicate both a telecommunication administration and a recognized operating agency.

## Recommendation B.19<sup>1)</sup>

### ABBREVIATIONS AND INITIALS USED IN TELECOMMUNICATIONS

The CCITT,

*considering*

- (a) the rapid increase in the number of abbreviations and initials used in the texts of the CCIs;
- (b) that it is sometimes difficult to find the precise meaning of an abbreviation or acronym appearing in a text of the CCIs,

*recommends*

(1) that, with the exception of abbreviations frequently used in telecommunications, abbreviations and acronyms should not be used in the texts of the CCIs unless they make the text easier to read, i.e. when an abbreviation may be used several times in the same text;

(2) that, with the exception of abbreviations frequently used in telecommunications the first time an abbreviation is used in a particular text its full meaning should be given, either in the body of the text or in a footnote;

(3) that an alphabetical list of the abbreviations used in the CCI volumes should be published either at the end of each volume or in a separate fascicle<sup>2), 3)</sup>

(4) that for abbreviations specific to certain fields, the Administrations, CCI Secretariats and other participants in the work of the CCIs should use the abbreviations which appear in the publications listed in Appendix I.

#### APPENDIX I

(to Recommendation B.19)

#### References to lists of specific abbreviations

##### I.1 *Frequency and wavelength bands*

See Recommendation B.15.

##### I.2 *Alphabets, codes, routing codes and identities*

See the relevant CCITT Recommendations (Index of the Blue Book, Fascicle I.4).

##### I.3 *Codes contained in the Radio Regulations*

I.3.1 Designation of emissions: Article 2.

I.3.2 Symbols for the various types of antenna: Appendix 2, Section III.

I.3.3 Q code, general section (QRA to QUZ): Appendix 13, Section I.

I.3.4 Miscellaneous abbreviations: Appendix 13, Sections I and II.

I.3.5 SINPO and SINPFEMO codes: Appendix 15.

---

<sup>1)</sup> CCIR Recommendation 666 is concerned with the same subject.

<sup>2)</sup> An alphabetical list of the abbreviations used in the CCITT volumes is published in Part V of this fascicle.

<sup>3)</sup> CCIR Recommendation 666 contains in its Appendix I, a list of about 100 abbreviations, in general use by the CCIR Study Groups and which are arranged by subject together with the corresponding abbreviations in the three working languages.

I.4 *Abbreviations used by the ITU for the names of countries*

See the Preface to the International Frequency List, Table I. (Different abbreviations have been approved by ISO.)

I.5 *Acronyms of international organizations involved in telecommunications*

See the ITU “List of Addresses”, § 3.

I.6 *Symbols and names for units*

I.6.1 Recommendation B.3 gives the sources to be used. This Recommendation refers to IEC Publication 27 and to ISO International Standards 31 and 1000.

I.6.2 Recommendation B.14: Terms and symbols for information quantities in telecommunications.

I.6.3 Recommendation B.15: (Note 2) – Frequency unit.

I.6.4 Recommendation B.12: Use of the decibel and the neper in telecommunications.

I.6.5 Recommendation B.18: Traffic intensity unit.

I.7 *Letter symbols*

Recommendation B.1: “Letter symbols for telecommunications” provides guidelines to be followed to simplify the reading of documents dealing with telecommunication techniques; it refers to IEC Publication 27 and to ISO International Standard 31 for letter symbols to represent physical quantities and mathematical operations.

I.8 *Chemical symbols*

See the table published by the International Union of Pure and Applied Chemistry (IUPAC).

## ITU-T RECOMMENDATIONS SERIES

Series A	Organization of the work of the ITU-T
<b>Series B</b>	<b>Means of expression: definitions, symbols, classification</b>
Series C	General telecommunication statistics
Series D	General tariff principles
Series E	Overall network operation, telephone service, service operation and human factors
Series F	Non-telephone telecommunication services
Series G	Transmission systems and media, digital systems and networks
Series H	Audiovisual and multimedia systems
Series I	Integrated services digital network
Series J	Transmission of television, sound programme and other multimedia signals
Series K	Protection against interference
Series L	Construction, installation and protection of cables and other elements of outside plant
Series M	TMN and network maintenance: international transmission systems, telephone circuits, telegraphy, facsimile and leased circuits
Series N	Maintenance: international sound programme and television transmission circuits
Series O	Specifications of measuring equipment
Series P	Telephone transmission quality, telephone installations, local line networks
Series Q	Switching and signalling
Series R	Telegraph transmission
Series S	Telegraph services terminal equipment
Series T	Terminals for telematic services
Series U	Telegraph switching
Series V	Data communication over the telephone network
Series X	Data networks and open system communications
Series Y	Global information infrastructure and Internet protocol aspects
Series Z	Languages and general software aspects for telecommunication systems
