

Young Influencers Day

Sunday, 7 December 2014

The Young Influencers Day on Sunday, 7 December, 2014 is designed to include young people both locally and globally in ITU Telecom World, enabling them to be part of conversations that matter. The Young Influencers Day is focused on two afternoon sessions which provide a platform for young people to raise their voice and contribute to topical discussions. Participants are also invited to attend the official ITU Telecom World Opening Ceremony in the morning, join one of the Forum Open Sessions, explore the Showfloor and benefit from networking opportunities throughout the day. The Young Influencers Day aims to provide young people access to a platform where they can mix with an influential audience, network with sector representatives and take part in relevant discussions.
