Hutchison Optel Telecom Technology Co., Ltd (Hutchison Optel) is a subsidiary of Hutchison Whampoa and a leading provider of carrier-class optical networking solutions. We provide a wide range of products for fibre communication networks such as SDH, MSTP, MSPP and their derived products. Every year, we provide more than 100,000 optical network systems or parts to telecommunications operators, enterprises and utility network users globally. Recently, we have committed to new generation, multi-purpose, packet-oriented optical transport products. Optel's optical network will upgrade to a service-oriented universal switching platform.
