Intellect members comprise organisations large and small from the UK's hi-tech industries. Intellect is committed to improving the environment in which our members do business, promoting their interests and providing them with high-value services. We seek to: accelerate industry growth and prosperity in the UK; present our industry's agenda to the government and the private sector; raise media awareness of the importance of our industry; provide high-value services; develop and encourage best practice and information exchange and provide a forum to develop business contacts.
