The Ministry of Health (MOH) of the Azerbaijan Republic is the central executive authority implementing State politic and regulation on public health protection. Current MOH projects include: the "Citizens' Electronic Health Card" system implementation created an effective nationwide surveillance system over population's health. The "Medical Checkup Card" information system being implemented nationwide for obligatory groups of population needs systematic occupational medical checkups. The Health Information System (HIS) recently established in country's healthcare institutions allow to use modern systems like PACS, LIS, etc. The modern emergency dispatch automated system installed in Baku City EMSs allowed for the increase in the quality and effectiveness of emergency medical services.
