Ministerio de Industria, Turismo y Comercio

Capitan Haya, 41
ES-28071 Madrid
Spain
Email: www.mityc.es

One of the main actions the Ministry of Industry, Tourism and Trade is based on the improvement in competitiveness of the Spanish economy. A competitiveness that requires, among other subjects, investment in technology, innovation, infrastructure modernisation, strengthening of the industrial network and development of the Information Society. Within this sector, the project "PLAN AVANZA" (www.planavanza.es) boosts the spreading of Internet at school, electronic administration or Broad Band. Furthermore, the Ministry sets as a priority the internationalisation of Spanish companies.
