Orckit-Corrigent facilitates telecommunication providers' delivery of high-capacity broadband residential, business and mobile services over wireline or wireless networks. With over 20 years of field experience, a reputable list of worldwide Tier-1 customers and sound leadership, the company has a firm foothold in the world of telecommunications. The company's carrier ethernet + transport solution is a Layer 2 MPLS-based portfolio enabling advanced packet as well as legacy services over packet networks, with a wide set of transport features. Dually traded in NASDAQ (ORCT) and TASA, Orckit-Corrigent markets its products directly and through strategic alliances and distribution channels worldwide.
