SoSoftware offers a fixed-to-mobile convergence solution allowing businesses to communicate with mobile phones as with desk phones, with high value-added services: One Business Number, instant messaging, presence status, mobile calls at the fixed-lines rates, roaming costs reductions. Easy to download, easy to use, easy to improve overall collaboration and to reduce mobile calls costs, SoLo Mobile Solution is the ideal solution for: high mobile calls costs; people needing to hide their mobile number (CEOs, finance, physicians, politicians, ...), PBX manufacturers (Avaya, Mitel, Siemens, Asterisk), telecoms operators and vertical markets (hospitality, finance, governments, healthcare). For Symbian OS, Black Berry, iPhone.
