Svyazinvest is the largest group of telecommunications companies in Russia that provide local voice, DLD and ILD telecommunications services. The Group's companies actively implement new technologies and offer top-notch solutions - multiservice networks, broadband Internet, mobile telephony. Being the foundation of Russia's telecommunications infrastructure, Svyazinvest operators service most Russian households, companies and government institutions. Svyazinvest Group's key assets are composed of seven regional telecommunications operators (CenterTelecom, North-West Telecom, VolgaTelecom, Southern Telecommunications Company, Uralsvyazinform, Sibirtelecom, Far East Telecom); Rostelecom, national long-distance telephony operator; Central Telegraph OJSC and GIPROSVYAZ OJSC, leading Russian engineering and design institute for telecommunications facilities.

Swisscom is Switzerland's leading telecoms provider, with 5,5 million mobile customers and around 1.8 million broadband connections. In the first half of 2009, the company's 19,970 employees (full time equivalents) generated revenues of CHF 5,9 billion. Every year, Swisscom invests more than a billion francs to continuously expand its broadband network and to enable it to continue offering new multimedia applications quickly, smoothly and in top quality in the future, as well. At the ITU Telecom 2009 we will be demonstrating our commitment to the sector's sustainable development as well as Switzerland's economic competitiveness.
